

## ISSUE TURNS TO LESS ACUTE STAGE

Consider Proposal to Take  
Questions in Dispute  
to the Hague

## URGE DIFFERENT VIEWS

President May Not Determine  
on Course to Be Pursued  
for A Day or Two

## INDICATIONS MORE FAVORABLE

WASHINGTON, Sept. 11.—The issue with Germany has turned to a less acute stage during the last 24 hours through consideration of the proposal to take the dispute in questions of fact in the Arabic case to The Hague.

One set of officials believes to do so would amount to arbitrating the principles for which the United States has been contending and would open the way to practically unlimited submarine operations with disputed questions of fact and arbitration in each case.

Another set of officials believes that without taking in the principles involved, The Hague might properly be allowed to decide not whether the submarine commander thought he was justified in sinking the Arabic because he believed she was about to ram him, but whether the liner actually was attempting to resist or escape and if so, whether that justified the commander's act in international law.

Wilson to Decide Course.

Both sets of views are being urged on President Wilson who will decide what shall be done. Secretary Lansing refused today to indicate his view. The course to be pursued may not be determined for a day or two. Generally the indications in official quarters were more favorable. Despite the fact that all officials considered the German explanation unsatisfactory and disappointing there appeared to be more of a prospect for finding some ground on which the two countries could meet. Another note officially reported to have been delivered to Ambassador Gerard by the Berlin foreign office last night failed to arrive today. Secretary Lansing said he had no official knowledge or intimation that another communication was coming or what it contained.

Explains Attack on Orduña.

At other sources it was reported that the note is Germany's explanation of the unsuccessful attempt to destroy the Cunard liner Orduña on July 9, when a submarine sent a torpedo within ten yards of the ship's stern, unsuccessfully shelling her until she was out of range. The Orduña was on her way to the United States and had twenty-two Americans aboard when attacked. In the Orduña case there is a conflict of statements as to whether the ship had warning or tried to escape. It is not an issue between the United States and Germany and is not likely to become one. The German note is in response to inquiries made by Ambassador Gerard at the direction of the state department. It is not regarded as having any bearing on the present situation unless it contains some declaration of principle new to this controversy.

Time Lessons Danger.

The view of the closest observers here is that, in the Arabic case, the danger of a break grows less as the hours pass without action. In the case of Dr. Dumba, Captain Franz von Papen, the German military attaché and Alexander Nuber von Perked, Austrian consul-general in New York there was no change. The United States still is waiting for Austria's reply to the request to withdraw Dr. Dumba. Whether the other men are sufficiently involved in Dr. Dumba's offense to make them remaining in the United States impossible will be decided later.

## THREE MASKED MEN RAID BANK; GET ABOUT \$300; OVERLOOK \$5,000

SIoux CITY, Iowa, Sept. 11.—Three masked men late today entered the Farmers & Merchants bank located in Greenville, a suburb of Sioux City, held up Ralph M. Fritz, the assistant cashier and escaped with about three hundred dollars.

The cashier was locked in the vault after the bank was raided. The robbers escaped in an automobile. Five thousand dollars was overlooked in the vault where Fritz was made a prisoner.

## HONOR JOHN D. ROCKEFELLER

Nish, Serbia, via London, Sept. 11.—9:05 p.m.—The decoration of the Grand Cross of the Order of St. Sava has been conferred upon John D. Rockefeller, in recognition of the relief work done by the Rockefeller Foundation in Serbia. Dr. Richard P. Strong, head of the American sanitary commission in Serbia, on leaving the country was made a grand officer of the order of St. Sava by the Prince Regent.

## SIR WILLIAM VAN HORNE DIES IN MONTREAL

ROSE FROM POSITION OF LABORER  
IN JOLIET RAILROAD YARDS

Came to Be Master of Finance  
and a Leading Figure in Trans-  
continental Railroad Develop-  
ment in Canada.

Montreal, Sept. 11.—Sir William Van Horne, who from the position of a laborer in the railroad yards at Joliet, Ill., came to be a master of finance and a leading figure in trans-continental railroad development in Canada, died today in the Royal Victoria Hospital here, after a serious illness of more than two weeks duration.

Sir William had been in failing health for a number of years and on August 22nd, upon the urgent recommendation of attending doctors, he was removed to the hospital where an operation for abdominal abscess was immediately performed. He rallied and bulletins reported that his condition was satisfactory.

Continued improvement was recorded until last Wednesday when his temperature suddenly began to rise and his appetite failed. Several hours before his death today it was announced that all hope for his recovery had been abandoned and that his death was a matter of hours.

Lady Van Horne, her son, daughter and granddaughter were present at the bedside when death came. Sir William had lapsed into unconsciousness but was conscious just before the end and bade farewell to his family.

## THREE DRIVERS ARE INJURED IN MINNESOTA AUTO RACES

Nap Graff Drives Into Fence in Order  
to Avoid Collision With  
Another Machine—Injuries May  
Prove Fatal.

Hamlin, Minn., Sept. 11.—Three drivers in ten automobile races at the state fair were injured this afternoon, one seriously. Nap Graff, 22 years old, drove his car off the track and into the fence in order to avoid a collision with another machine. His injuries may prove fatal. His home is in Ludlow, Ky.

Sid Huggdahl in the three mile race, skidded into the fence and wrecked his machine but he was only slightly hurt.

Billy Purcell, in the warming up trials, ran his car off the track and went over a embankment. He was taken to the emergency hospital on the grounds.

The five mile automobile record for the track was broken today by George Clark, driving against time. He made the distance in 4:15.3-4. The previous record was 4:16.

## RAPID PROGRESS IS MADE IN TRIAL OF INDIANAPOLIS MAYOR

Prosecutor Probably Will Conclude  
His Opening Statement Late Monday.

Indianapolis, Ind., Sept. 11.—Rapid progress was made in the trial of Mayor Joseph E. Bell during the first week which ended today. Prosecutor Alvah J. Rucker probably will conclude his opening statement, which he began Friday morning, late Monday. So far, he has spent much time reading and explaining the law to the jury as under the Indiana law the jurors are judge of both the law and evidence.

Thomas Taggart, Mayor Bell and Chief of Police Samuel V. Perrott, the three most prominent men indicted, were held responsible by Rucker today for a large "slush" fund which, it is charged, was used in the primary and election for hiring repeaters and sluggers.

Taggart according to Rucker, made his collections from the breweries, Bell "blackmailed" many citizens of the county and Perrott bribed the saloon and brothel keepers and gamblers, to raise the fund, Rucker said.

## TALK OF REPRISALS AGAINST AMERICANS DIMINISHES

BROWNSVILLE, Tex., Sept. 11.—Col. A. P. Bloskum in command of United States troops at Fort Brown received a report today that there had been a marked diminution in the talk of reprisals against Americans among responsible persons on the Mexican side of the Rio Grande.

Col. Robert L. Bullard, at Harlingen, Tex., investigated a report that armed and mounted Mexicans had visited a large ranch in Hidalgo county Wednesday, asked the Mexicans employed there for water and then rode away. The report is said to have been spread by this same band, which came from Hidalgo county today that the Mexicans had told Americans that Sept. 12, had been set as a date for attacking all Americans on the border.

Gen. E. P. Nafarrate at Matamoros today repeated his assurances of co-operation with the American authorities in maintaining order.

## NAMES RECEIVER FOR CARRIAGE COMPANY

Ottawa, Ill., Sept. 11.—Judge Edgar Eldredge today appointed F. A. G. Hathaway, receiver for the S. G. Carriage company. The assets of the company are \$164,271.63 and its liabilities \$74,123.60.

## GIBBONS BESTS PACKEY M'FARLAND

St. Paul Phantom Scores  
More Frequent and More  
Effective Blows

## BIG CROWD AT BATTLE

Chicago Fighter Shows That  
Long Absence from the Ring  
Has Dulled His Speed

## GIBBONS TAKES AGGRESSIVE

RINGSIDE, Brighton Beach, N. Y., Sept. 11.—Before the largest crowd that ever witnessed a boxing match in this country, Mike Gibbons of St. Paul outpointed Packey McFarland of Chicago in a ten-round no-decision contest here tonight. The bout which brought together two of the cleverest boxers in the ring today was hard fought from start to finish but Gibbons scored the more frequent and more effective blows.

McFarland showed that his long absence from the ring had dulled his speed and power to snap punches to vulnerable points of his opponent's head and body. McFarland showed flashes of speed, but the leads were little more than snaps and did not check Gibbons' more effective assault. McFarland appeared nervous when he entered the ring and was not as finely conditioned as his opponent. The St. Paul phantom immediately took the aggressive and showed that he intended to make a fight of it instead of a sparring exhibition.

There was power behind almost every blow that he landed and he found little difficulty in beating the Stock Yards boxer to the punch.

For the first four rounds Gibbons was always in the lead playing alternately for the head and body. In the fifth McFarland took the aggressive and being thoroughly warmed up fought desperately to stem the tide of defeat. Gibbons met him half way, however, and the best the Chicago boxer could get was an even break in this round.

Round One.

They fiddled for a moment. Gibbons landed light left to Packey's face. After some sparring Gibbons hooked a right to Packey's head. Gibbons sent a light left followed with a light left to body. Packey reaching the body twice. Gibbons hooked right to the head and after a rapid exchange of body blows, Packey landed in the face with his right.

At close quarters there were rapid exchanges to the body and head. With Gibbons doing the more damage it was rapid work all through the round with Gibbons having a shade the best of it.

Round Two.

Both missed left swings. Packey sent straight left to face and landed. Gibbons countered twice on body. Packey crossed hard right to the jaw and Gibbons hooked his right to head. Each landed heavy blows to the body and they resorted to hard infighting. Gibbons hooked right and left to the head. Packey did his share of the leading but Gibbons outpointed him clearly.

Round Three.

Packey was on the aggressive and Gibbons met him with left and right hooks to face and head. Packey swung right to head but got three jabs on his face as he was backing away. Gibbons following fast and hooking his left to good effect. Packey played for the body but Gibbons whipped in two hard leads to wind and hooked right to ear.

Gibbons hooked left to jaw and Packey landed two right chops on head and shoulders. Gibbons finished the round with left and right hooks to neck and face. Gibbons' round.

Round Four.

Both landed hard lefts in the wind. Gibbons hooked left to the face as they broke away from a clinch Packey following with right and left to the head. Gibbons swung hard right to ear. Packey came back with two left hooks to the face. After some close work Gibbons hooked left and right to the head, a clever return. Packey swung right to the head landing below the ear and he jabbed left to the face. Mike swung left and right to the body.

Packey landed a back hand blow on the face and Gibbons swung right to head. Gibbons' round.

Round Five.

Gibbons was on the aggressive. Packey blocked his leads cleverly. Packey sent both hands to the body. Mike clipping short left to the chin. Gibbons ducked away from a right swing and jabbed his left to the face but Packey crossed his right hard to the head. Packey swung right to head again and chopped his left on Mike's nose. Mike drove both hands hard to the body and hooked his right to the top of Packey's head. This round was even.

## DISCLOSE BIG "ARSON TRUST" IN ST. LOUIS

DETECTIVES STATE SEVERAL CAPI-  
TALISTS ARE INVOLVED

Disclosures Are Made by One of Four  
Men Arrested While Delivering  
Four Barrels of Gasoline to a  
Factory Which They Had Agreed to  
Burn.

St. Louis, Sept. 11.—What detectives termed "the biggest arson trust which ever operated in any city," was disclosed here tonight and according to the detectives "a multitude of men, several of them capitalists" are involved. The disclosures were made by one of the four men arrested today while they were delivering four barrels of gasoline to a factory which they had agreed to burn.

The four men arrested while conveying the gasoline, Chief of Detectives Allender said, are the "torches" or active incendiaries of the "arson trust." As the result of their confession the police also arrested Herbert O. Baker, an insurance agent connected with a prominent concern. Late tonight the police announced that Baker confessed that he "had promoted" two large fires. This prisoner, the detectives said, told a remarkable story of co-operation between insurance men and incendiaries.

According to Detective Keady, who has been investigating arson plots here for six years, the arson syndicate which was turned up today is composed of nine men. Baker and four "torches" are the underlings, Keady said. The other four are men prominent in the insurance world in civic, social and political affairs. The men "higher up" are known by the police and their arrest is expected momentarily.

The police say Baker has confessed that he promoted the plans for burning the Christen Bellows company's plant which was frustrated by the police today. He also has confessed promoting the recent destruction by fire of a prominent art establishment where damage amounting almost to \$100,000 was done. The owners of this concern had protested that they knew nothing of the origin of the fire. Neighbors, however, had testified to having seen men run from the place a moment before a violent explosion wrecked the building.

The men referred to by the police as "torches" are Michael Edwards, alias "Split O'Connors" who the police say is an ex-convict, Max Greenberg, Morris Greenberg and Edward Miller, alias Miller. The four were released on \$1,000 bail each late tonight.

With the gasoline the police confiscated a pound of powder, several feet of fuse and a flashlight. In pursuance with the arrangements by detectives and upon the suggestion of the arson promoters the insurance on the Christen plant was increased \$25,000 recently, \$11,000 during the last few days.

The time for the fire was set at 3 o'clock. At 2 o'clock Chief Allender and a squad of twelve detectives with riot guns secreted themselves about the building. At 3 o'clock sharp Miller and Max Greenberg entered and asked Christen if the "coast" were clear, answered in the affirmative, and signalled O'Connors who stood in front of the plant who in turn mentioned to Morris Greenberg a block away to come on with the gasoline. As Greenberg drove up and the four started to unload the gasoline the police surrounded them.

## DENIES THAT EITHER VILLA OR FERRO HAVE BEEN INJURED

EL PASO, Texas, Sept. 11.—A telegram from General Villa dated at Torreon, sent tonight and received by Hipolito Villa, brother of the northern leader at Juarez, denied that either the northern general or General Ferro had been injured on their visit to the ranch of General Tomas Urbina at Nivis, south of Santa Barbara on the Parral-Juarez branch railroad as reported here today.

General Villa also denied that he had executed General Urbina but added that he had secured from General Urbina the loot the latter had collected in two years.

The report that General Villa and General Ferro had been killed in a fight with adherents of General Urbina at Nivis was brought to the border by a Villa adherent who said it reached him at Juarez.

Some of Diplomats Are  
Inclined to Give "First  
Chief" A Hearing

## WILL GIVE ASSURANCES

Carranza Will Call Election as  
Soon as A De Facto Govern-  
ment Can Make Arrangements

## VILLA AGENCY DENIES CHARGE

WASHINGTON, Sept. 11.—General Carranza's counter proposal to the Pan-American diplomats for a conference with him over international phases of the Mexican problem probably will be approved, according to opinion expressed here tonight by officials in touch with the administration. Although Carranza refused to yield to the appeal of Secretary Lansing and representatives of six Latin-American republics that he join his adversaries in a peace conference, it was pointed out here that military conditions in Mexico had undergone marked changes in the last few weeks and in some quarters it was contended that Carranza's claims for recognition were entitled to investigation.

Armies Press Pacification.

Since the Pan-American appeal was issued, Carranza's armies have pressed pacification to territory in Central and Northern Mexico, while some reports to the state department have declared that General Villa's forces are disintegrating. From authoritative sources advice has reached Washington that it would be difficult to conduct a convention to select a provisional government in Mexico without the participation of Carranza and his military commanders who claim now to control nearly all Mexican territory. Secretary Lansing would not indicate today how the Pan-American conferees would act on Carranza's proposal. It was understood that would be determined at a meeting next week. From several sources, however, it has been learned that some of the Latin-American diplomats are inclined to give Carranza a hearing, with a view to learning what he might propose, if recognized on a de facto basis, with regard to the adjustment of war indemnities and the protection of foreign interests. Carranza, it is said, is ready to give assurance that he will, as soon as a de facto government can make arrangements, call general elections and that he will step aside for the president chosen at that time.

As to revolution claims of foreign governments and Mexico's debts, Carranza is said to be ready to reiterate assurances he made last June.

Villa Agency Denies Charge.

Villa's agency in Washington declared in a statement tonight that it would address the Pan American conferees regarding assertions made in Carranza's reply to their peace appeal. The statement disputes Carranza's claims of territorial control, denies the charge that Villa was bribed to turn against Carranza and declares:

"General Carranza's charge that General Villa is reactionary sounds strange in view of the fact that he has just invited ex-federals to join his cause and has made overtures in many other ways to the old Huertista element in his desperation to obtain aid for conducting his war against the efforts to establish a government truly for the people of Mexico."

## HUDSON COUNTY, N. J., DEMOCRATS ENDORSE WILSON FOR RE-ELECTION

JERSEY CITY, N. J., Sept. 11.—In spite of the request of Secretary Joseph P. Tumulty that no such action be taken at this time, a mass meeting of Hudson county Democrats tonight endorsed President Wilson for another term and pledged their efforts to bring about his re-election. The meeting was arranged by Sheriff Eugene F. Kinkhead, Democratic state committee man from the county and John P. O'Gorman, chairman of the county committee.

United States Senator James Hamilton Lewis of Illinois was the principal speaker.

He eulogized the president, reviewed his administration and urged his re-nomination and re-election.

## SEVERAL THOUSAND SURROUND JAIL WHERE NEGROES ARE HELD

HUNTINGTON, W. Va., Sept. 11.—Several thousand persons tonight surrounded the jail at Ashland, Ky., near here where twenty negroes suspected of knowing something of the murder of Joseph C. Gibson, a railroad engineer, in fear of lynching, were said to be praying in their cells. The crowd to mid-night had made no demonstration but the authorities took precautions. Feeling ran high during the day and numbers of negroes were said to have crossed to the Ohio side of the river.

## FOUR ARE KILLED WHEN TRAIN STRIKES AUTO

THREE OTHERS ARE SERIOUSLY IN-  
JURED AND MAY DIE

Accident Occurs on South Saginaw  
Road About 2 Miles South of  
Flint, Mich.—Motor Car is Hurled  
a Hundred Feet.

Flint, Mich., Sept. 11.—Four persons were killed and three were seriously injured when a Pere Marquette passenger train struck an automobile bus near here early this evening.

The accident occurred on the South Saginaw road about two miles south of Flint. Pere Marquette Passenger No. 5, fifteen minutes before time, approached the crossing at high speed, witnesses declared. As the automobile neared the track, spectators said the locomotive whistle screeched, but a moment later engine and automobile came together. The motor car was hurled 100 feet and the following victims were picked up:

Dead.  
Clinton Sain, Chicago.  
Claude Deutscher, 35 years old, Grand Blanc, Mich.  
George Randle, 32, Flint, Mich.  
Mrs. C. B. Erwin, Fenton, Michigan.

Injured.  
Benjamin Berkowitz, Flint, back broken.  
Mrs. Edith Wietke, Fenton, Michigan, injured internally.  
George Barnum, Fenton, injured internally.

All of the injured may die. The bus operated daily between Flint, Fenton and Long Lake. All of the occupants were killed or injured. Berkowitz was the driver.

## ARREST FIVE IN CONNECTION WITH BURGLARY AT ARMOUR'S HOME

Four Men and a Woman are Taken  
by Chicago Police—Chief Healey  
Says All the Men Have Been Ar-  
rested Before.

Chicago, Sept. 11.—Four men and a woman were arrested late today in connection with the burglary at the home of Mrs. J. Ogden Armour, wife of the millionaire Chicago packer last Monday night. Chief of Police Healey declared after the five persons had been taken into custody that he was certain that among them were the intruders who beat and robbed Mrs. Armour. The held are:  
Joseph Carville, Mrs. Joseph Carville, his wife; William McClain, Don McClain, his brother, and George Comerie.

Chief of Police Healey said that all the men had been arrested before and were well known to the police. Comerie, according to the chief had been sought for more than a year as the chauffeur of the notorious "Teddy" Webb gang of automobile bandits, who terrorized the city for many months. William McClain is known to the police as "Crabby" McClain.

All the prisoners were put under a severe grilling tonight in an effort to determine if they knew anything of the burglary.

## ANGLO-FRENCH COMMISSION MAY MEET CHIEF EXPORTERS

Plan is Suggested to Smooth the  
Ways for Launching Mammoth  
Credit Loan in This Country.

New York, Sept. 11.—To smooth the ways for launching a mammoth credit loan in this country to Great Britain and France and probably Russia and Italy the Anglo-French financial commission, it was said today, probably will meet the chief exporters of grain and other commodities from this country. Whether the makers of munitions are among these exporters could not be ascertained. It had previously been thought that the commission would deal with bankers and financiers alone. The proposal that it meet with the exporters as well, in order that the actual shippers of American supplies may realize the importance of the work confronting the commission is understood to have been received with general favor. As yet, however, no definite plans of procedure have been formulated.

A meeting with exporters, if finally decided on would be arranged with a view to strengthening the demand from that quarter that a way be found toward co-operating with the commission, informally in arranging the contemplated credit loan. As yet there has been no apparent widespread demand that the banks of the country unite in financing a loan of a half billion dollars or more with which to pay for supplies bought in this country. The impression exists that unless such a demand can be created the commission will find its task an onerous one.

## PENNETT HEADS FIRE MARSHALS

## AUSTRIANS ADMIT SETBACK

LONDON, Sept. 11.—The western front with continuous artillery engagements, occasional infantry attacks and the probability that important events, now impending, will soon begin, attracts almost as much attention as the eastern battle fields where the Russians and Austro-Germans are contending for the mastery of railway lines, the possession of which will make the victors more secure when the time comes to go into winter quarters.

Put Forth Strong Offensive.

For some time, however, the east is likely to be the scene of the more sensational actions. The Germans are putting forth a strong offensive on either wing and are making an equally stubborn defensive in the center, where the Austro-Germans, although gaining ground daily and coming closer to the Vilna-Rovno railway are meeting with increasing opposition.

Each village, stream and road is proving the scene of a sanguinary engagement.

Germans Capture Skidel.

For example Skidel, a town immediately east of Grodno, which at last has been captured by the Germans, was the center of a battle lasting several days with alternating success. The Germans attacked the town again and again, massing heavy artillery for the purpose and according to the Berlin official statement did not succeed in overcoming the Russians until last night. Throughout the great marsh district from this point southeastward to Rovno, similar contests are taking place. The Austro-Germans are trying by every means in their power to force their way through to the Vilna-Rovno railway before the heavy rains set in and put an end to the fighting for the time being. In the narrow strip of Galicia between the Sereth river and the Bessarabian frontier, the Russians have been strongly reinforced and are apparently well supplied with guns and ammunition. They report their third victory here over the Austro-German forces, bringing their total of prisoners captured during the week up to 22,000, without mentioning the loss of men and guns.

Austrians Admit Setback.

The Austrians admit that they have suffered a setback in this region, in the statement that they withdrew their front on the Sereth to the heights east of the Stripa river "before superior enemy forces."

On the northern end of the line southeast of Riga, the Russians also are on the aggressive with the result that the Germans have made no further progress against the Dvina river line. Some of the British military writers believe that the limit of their penetration of Russian so far as this year is concerned and that they must now look to the defense of their present lines. It is reported, in fact, that they are already reconstructing the fortifications of Kovno which are threatened by the Russian offensive northwest of Vilna.

The Russians estimate that the Austro-Germans have 2,500,000 men on their front, 26 corps being in the Baltic and the Lithuanian region. Included in this army are eleven Austrian and nine German cavalry divisions.

Italians Bombard Austrians.

The Italians, like their western allies are heavily bombarding their opponent's line with artillery, doubtless in an effort to find a weak spot to attack.

The request of the American government for the recall of the Austro-Hungarian ambassador, Dr. Dumba, and the report that other diplomatic representatives may be similarly dealt with is creating great interest in England.

## MATRIMONIAL

Baird-Williams.

Miss Dana Baird and LeRoy Williams were married by Dr. F. M. Rule at the residence of Capt. Alexander Smith on West State street at 11 o'clock Friday morning. Following the ceremony a reception took place at the home of the groom's parents, Mr. and Mrs. John B. Williams, 412 E. College street. There quite a large company of relatives and friends assembled and a wedding collation was served. The bride's gown was of white net draped over pink and she carried a bouquet of white roses. Miss Mahel Williams, a sister of the groom, was maid of honor and her dress was a dark green silk. She carried a bouquet of white roses. Thomas Julian of Chicago was the best man. When the interesting ceremony of cutting the cake occurred, Clyde Baird received the darling needle, Miss Helen Daniels the safety pin, and Miss Alma Baird the dime, while the groom himself secured the ring. Mrs. Williams, until recently was stenographer in the office of Paul P. Thompson and the groom is an employee of the railway and light company. They received a great many presents in testimony of the esteem in which they are held by their many friends, and will begin housekeeping at once at 619 South Fayette street.

One very good indication that the commission form of government is representative appears from a comparison of the names of present city employees. In checking over the list of employees it is found that out of the total of thirty-six that twenty-four are residents of the first and third wards, while others live in the second and fourth wards. Certainly if present city officials had a disposition to ignore residents of the east side or to overlook their claims they would not have been likely to fill more than sixty per cent. of the appointive "jobs" with east side residents.

There are many people who will vote at the coming election in favor of retaining the commission form who are not fully convinced that this form as a matter of law presents a great many advantages over the old form, but they are influenced by the fact that the present city officials are men of good standing in the community, certainly the equal of the average officials of past years. They have reconsidered that a vote for a change at this time will be the equivalent of a recall for the mayor and commissioners who only a few months since were elected to office by a majority vote of the people.

Though not especially enthusiastic about the commission form, they nevertheless do not wish to be placed in the attitude of voting to recall the officers who have been duly elected but a short time since and who have done nothing to forfeit the confidence or good will of the people.

One hundred and twenty-five out of one hundred and sixty Republican editors of southern Illinois attended a banquet given in East St. Louis Friday night. They represented fifty-two counties and eight congressional districts, and their action was by one accord when they endorsed Senator L. Y. Sherman for the Republican presidential nomination. Incidentally it may be stated that the Sherman boom for the nomination which started out in a very modest sort of way a few months ago, is beginning to assume very formidable proportions.

Senator Sherman has manifested such good judgment with reference to the campaign his friends are waging, and his utterances on public questions have been so notable recently, that he is constantly gaining in public favor not only in Illinois but beyond the confines of the state.

In Jefferson City, Mo., the school board gained at least temporary popularity with all the pupils by postponing the opening day because a circus was coming to town on the date originally scheduled. Evidently the people feel there like a writer in the St. Louis Globe-Democrat that St. Louis had made the license who bemoaned the fact fee so high that no circus was willing to visit that city this year. Mayor Rodgers expressed the same view recently when he laughed at the story that he was in favor of a high license fee that would keep circuses away and remarked that there was nothing that he would rather go to, and that he would like to see two or three a year instead of one.

As one speaker put it at the meeting Friday night, "There is no good reason why the voter who happens to be dissatisfied because of some appointment made by the present council should be a party to tearing down the whole administration." This speaker said, "I wasn't pleased by some of the appointments and have made no secret of that fact, but that hasn't made me want to tear down the whole organization. A man who has a building with a leaky roof doesn't tear down the whole structure and begin over again with some new or old plan."

### A Good Financial Showing.

It was during the last four years, the first term of Jacksonville under the commission form of government, that the water receipts were more than doubled. During the first year of that period the water receipts were a little more than \$15,000, and by the final year the totals had increased to something more than \$35,000. Not a bad record that, for the commission form of government and the statement is based on the records on file at the city hall.

The whole financial record for the four-year period constitutes an answer to the plea that the commission form of government is too expensive because of the amount of salaries paid to mayor and commissioners. During that period the floating debt of the city was reduced \$22,000, and unusual expenditures amounting to \$54,000 were made. These expenditures were for light and water department improvements, a payment of \$15,000 on the Morrissey shortage and a payment of \$5,000 for attorney's fees occasioned by the litigation in the Jacksonville water works case. The figures indicate that some good business judgment was used under the first four years of commission form.

The power of the press as a aid to physical, moral and social progress is being more and more appreciated, if one may base the statement on the recent utterances of Ed. ward A. Moree, an officer of the New York state charities aid association. In addressing a recent meeting of the American public health association, he declared, "Printers' ink should be entered in the pharmacopoeia as an accredited remedy for human ills." Then he went on to say how great hospitals for the cure of tuberculosis had been built through newspaper publicity, and related how other campaigns for sanitary and economic advancement had been put to a successful conclusion through newspaper publicity. And now that sociologists and philanthropists are beginning to appreciate the value of newspaper publicity to their work, possibly the time will come when physicians will abandon the prejudices they have had in the past and revise or discard those prejudices commonly termed "a code of ethics." Newspaper publicity is just a refined term for newspaper advertising; and advertising, whether it is paid for or given away, is advertising nevertheless.

### Fall Opening Day.

It is a good idea that, of a large number of merchants joining in preparations for a fall opening day. The fact assures the visitors who come to the city special displays will worth their attention and in addition the very fact of the united movement is helpful to the city. The charge has been sometimes made that the business men were deficient in the matter of working in harmony but the coming event and some others like it which have occurred in the past disprove the statement.

The fall season is opening a little earlier this year than is sometimes true because of the cool summer months and the stores of Jacksonville are now crowded with offerings suitable for the fall and winter. The list of merchants who have joining in extending a special invitation to visitors includes those in many lines and thus a great variety of displays is certain. The merchants of Jacksonville extend a most cordial invitation to the people of the city and surrounding territory to visit their stores next Wednesday, September 15th, and assure them a most cordial welcome.

### The Reporter's Ways.

It was Robert Burns who once said:

"Oh would some God the gift to give us,  
To see ourselves as others see us."  
That doesn't apply to newspaper reporters, on the stage and in the moving pictures. Heaven forbid that their real reporters look like the stage and picture reporters. Scoop in the wildest stretch of the cartoonists' imagination never looked like those play individuals.

A few days ago a feature picture was shown at a local theatre. In this picture were a number of reporters. They were trying to find out about an accident to a prominent man who had been injured. They descended on the residence in a manner something like a swarm of bees. Each reporter had a pad that looked like an old fashioned geography. Their pencils in the picture looked like small sticks of wood. They sneaked around and hid behind curtains and ambushed everybody they saw and yet escaped with their lives. One reporter after writing each word rammed his pencil down his throat. We don't know what for and no one else does.

It is pretty hard to portray a real newspaper reporter. Our advice to

anyone who wants to try is to keep the pencil and the paper out of sight. Real reporters don't advertise their calling. Nothing scares a man who has something to tell like a pad of paper or a pencil. No, the real newspaper reporter is just like any other rational human being. He has a nose for news. He has the faculty of carry lots of facts in his head that never reach his note pad. He is a good judge of human nature and he never travels in flocks. If newspaper reporters were not so busy getting out papers it might be wise for some of the movie makers to hire a few sometime and let the public see what a real reporter looks like and how he goes about it to get the news.

No matter what one may think of the whole principle of the initiative and referendum as applied broadly, the average citizen believes in the principle as applied to local affairs. This principle in the commission form of government law means that the people have the right to introduce any ordinance that they see fit if they are unable to have the council pass such an ordinance or they can demand a vote upon any ordinance which originates in the council if they are not satisfied with its provisions. Under the commission form no franchise can be granted without a vote of the people and this in itself is a salutary thing for it can not be denied that aldermen under the control of their constituents than is true of commissioners who are subject to a recall under the commission form. As indicated, the people may differ in their views as to the propriety of applying the initiative and referendum to state or national affairs but most of them agree that in local questions this provision supplies additional protection to citizens.

PENNSYLVANIA MEN HERE TO  
GET FACTS ABOUT MR. STONE

Former High School Principal Seeks  
Superintendency of Munhall  
Schools—Made Good Impression  
There and Investigation Was  
Begun.

A. W. Soderberg and John Bell, Jr., of Munhall, Pa., came to Jacksonville Saturday to get some first hand information about the work done here by Prof. Charles A. R. Stone while principal of the Jacksonville High school and also to learn the place he held in public opinion. The visitors called on Geo. S. Rogerson, late in the afternoon and he arranged for them to meet a number of citizens at the Dunlap last night.

Today Mr. Soderberg and Mr. Bell will start on their homeward journey and will take back with them a decidedly favorable opinion of their opinion is based upon the reports heard. The visitors said last night that they were greatly impressed with statements made by various citizens and that they had not succeeded in finding anyone who had any fault to find with the former high school principal or his work. It seems that Mr. Stone is the 34th and last applicant to seek the superintendency of the Munhall schools and that members of the board were so impressed with him that they asked Mr. Soderberg, who is chairman of the teachers' committee, and Mr. Bell, who is secretary of the board, to make a personal investigation in Jacksonville.

Among those who met the visitors and expressed high regard for Mr. Stone were Dr. R. O. Post, Supt. H. H. Vasconcellos, Mayor H. J. Rodgers, Rev. Percy Stephens and H. C. Clement.

There are about 900 pupils in the Munhall schools with a teaching staff of twenty-six. The superintendent who has been serving recently, secured an appointment at Asbury Park and thus the vacancy occurred. Evidently Mr. Stone's chances of securing the post are excellent and the general opinion here is that he is thoroughly qualified for the work.

Munhall is a suburb of Pittsburgh and the plant of the Homestead Steel works is there, giving employment to 10,000 people. Mr. Soderberg is assistant mechanical engineer and Mr. Bell metallurgist of this great plant and the Jacksonville people who met them yesterday were impressed by the fact that men holding such important positions would take the time for a long journey to investigate an applicant for the school superintendency. They seemingly have high class men on the Munhall board and are careful in making their selections for school head.

GIBBONS BESTS PACKEY M'FARLAND

(Continued from page one)

Round Six.

Both missed swings to the head. Gibbons hooked left and right to the wind, Packey landing light lefts to the face. Gibbons swung his right to the head and with a left hook made an abrasion under Packey's right eye. Packey bore in forcing Gibbons to the ropes but Gibbons sent him back with left and right hooks to the head. Packey was willing but Gibbons was more effective. Gibbons' round.

Round Seven.

Gibbons hooked left to the face and crossed right too high on the head. Packey swung his right twice on the neck ineffectively. Gibbons missed a right uppercut but followed quickly with two lefts to the head, Packey replying with both hands to wind. Packey cut Gibbons' left eye with a right hook but Gibbons hooked his left to the jaw and crossed his right heavily to Packey's left cheek. Gibbons swung right to left temple and jabbed left to face, followed with hard right to the wind. Packey fought back with both hands and again used a left hand blow, back handed, to the face.

Round Eight.

Gibbons jammed left to face and uppercut hard right to wind. Packey's counters were well timed but very light. Gibbons put a lot of weight in every blow he landed, hooking right and left to the head and Packey jabbed left and used the back hand blow again. Packey rushed, swung left to the ribs forcing Gibbons to the ropes. When they broke away Gibbons hooked left and right to head and blocked several of Packey's leads. Gibbons landed two hard left jabs on the face and missed right swing which Packey ducked nicely. They were fighting at close quarters as the round ended. Gibbons' round.

Round Nine.

Packey rushed but Gibbons stopped him with a left jab to the face followed with a left hook to the jaw. Packey landed left to the face but Gibbons hooked his right twice to the head and sent in two damaging lefts to the wind. Gibbons hooked right to head. Packey landed both gloves to the stomach. Gibbons hooked right and left to the head and cleverly blocked as Packey rushed him to the ropes without any damage. Gibbons sent three short right hooks to head and Packey uppercut him over the heart. Packey tried to force matters at close quarters but Gibbons offset this with short left and right to the head, Packey working both hands to the head lightly. Packey hooked hard left to head and after some rapid exchanges the round ended with Packey having a shade.

Round Ten.

They stood toe to toe with an even exchange of rights and lefts. Packey chopped his right to the head. Gibbons shook him up with a hard left hook to the jaw. Packey landed straight left on Mike's nose. After some rapid exchanges he hooked left to Mike's jaw and brought brought his glove back to the other side of the face. Gibbons jabbed three lefts to face and

crossed right to face. Packey landed left to face and crossed right to jaw catching Gibbons backing away. Both were fighting hard and each missed a right swing. Gibbons stepped out of reach of another right swing and landed left to face. Both were a bit wild as the round progressed and were slugging until the bell stopped them. It was Packey's round and as Gibbons turned to shake hands with him Packey said something to him which aroused his anger and for a moment it appeared as though they would exchange further blows.

MAVERICKS

We try to write in lighter vein and never pessimistic. For people like to see the world through glasses optimistic.

Sometimes we fear, however, Our efforts to be jolly, Are devoid of any humor And become just melancholy.

We learn from an exchange that a railroad vaccinates against typhoid. We always thought railroads were immune from everything.

We notice at a recent party where a delightful luncheon consisting of sandwiches, pickles, cake and fruit was served. And people wonder why they have indigestion.

In the future Mr. Dumba probably will spell his name with the last letter dropped, and live up to it too.

A woman named Dragini Chapin was recently released from the Carlinville jail. It seems that having a name like that is enough punishment without being locked up.

One of the fashion editors writing of the new styles says that they call for gold and silver. That is no news, we found it out several years ago.

A Glasgow man had his shoulder broken while working. We know a lot of men in Jacksonville who will never fracture any bones that way.

The age of chivalry is dead. The other day the dispatches said that the schooner Louise was in distress and not a man of war went to her assistance.

A Chicago woman's husband found \$3,000 in her stocking and proceeded to appropriate it. The police picked the husband up in the loop whence he had gone for the purpose of painting things a rich carmine hue. The woman identified both husband and money. This incident probably will relegate to the scrap heap the time honored receptacle of her wealth.

It is not likely that the grand duke will object to being transferred to the Caucasus. He probably has seen enough fighting to satisfy him the rest of his life.

A Washington youth claims to have discovered powerful gases in water that will run an automobile. He says these gases are of higher explosive power than gasoline. This probably will give some people and excuse for not drinking water.

We laid aside the palm beach suit. Likewise the old straw hat. Then it got so hot again. The old earth fairly cracked.

We learn that Carranza's men revolt in Tabasco. If the town is as hot as the sauce we don't blame them.

The militia was called out at Columbus, Ohio to stop a prize fight. It is more difficult to get most prize fighters to fight than it is to prevent them from fighting.

Our cooking expert in speaking of pork sausage said that some genius hit upon the idea of mixing flour and water and other ingredients in pork sausage. We refuse to agree with her. We think the man who discovered that method of making sausage is the master criminal of the age.

Back Home.

(Second Samuel 23:15.—And David longed and said, "Oh that one would give me drink of the water of the well of Bethlehem which is by the gate."—Text used for the funeral sermon of Rev. J. R. Stead over the body of George Fitch.) Once more the little church, the quiet street.

The grassy by-paths dear to childhood feet. The old familiar gate, the friendly trees, An olden garden bowered with heartease.

"Back home!" a tired boy, his play-time done, Seeking his mother's knee at set of sun . . . Or prince or poet, when the stress is past, The heart must still go homing at the last.

W. Kee Maxwell, Peoria Journal.

The Woman's Missionary Societies of Westminster church will hold the September meeting on Tuesday, Sept. 14, 3 p. m. sharp, with Miss Phillips, 506 S. FERGUS BILLS CAUSE  
LOAN SHARK BUSINESSINVESTIGATION IS STARTED AT  
STATE HOUSE.

Attempt is Being Made to Gather Evidence Against the Suspected Skylocks—Two Months Have Passed Without a Pay Day.

Springfield, Sept. 11.—The Fergus bills, challenging the validity of some \$2,000,000 appropriated by the legislature and affected to the extent of approximately \$200,000 by injunctions issued August 28, restraining State Treasurer Andrew Russell from paying the money out of the state's strong box, have resulted in the establishment, it was learned today, of a profitable loan shark business about the capitol.

Loan sharks are taboo about the state house for the civil service commission established a precedent some time ago by discharging a state employee who was discovered leading money, at an alleged extortionate rate of interest, to his less provident co-workers. It was whispered about the corridors today that an investigation had been started for the purpose of gathering evidence against the suspected skylocks.

The majority of those whose salaries are affected by the injunction and the ruling of Treasurer Russell that all money challenged in the Fergus bills shall be held up until assurance is given that it is not to be subjected to the scrutiny of the jurists of the supreme court, are just ordinary folks, living from one pay day to another, saving nothing and having a hard struggle to keep out of debt.

Two months have passed without a single pay day and now there are grave prospects that two more months, at the least, will elapse before, as they express it about the capitol building, "the ghost walks". In the meantime wives and babies must be fed, clothed and taken to the movies.

The complaints of unpaid tradesmen are beginning to be heard about Springfield. The borrowing of money isn't proving a simple matter either, since the Creighton opinion of last Saturday, for many persons believe the higher court will sustain the circuit court jurist. The various "bosses" in the state house are said to spend much of their time listening to the hard luck stories of less important cogs in the machinery of the commonwealth. In some cases they are no more provident than the employees in their offices so that a few of the bigger fellows are beginning to feel the pinch. Like Treasurer Russell, those who could afford to lend to a few have found it the better part of wisdom to make an iron clad rule not to do so because one loan granted means requests from scores.

A scattering of state employees have resigned since the filing of the Fergus bills and the consequent tying up of their salaries.

## GRIGGSVILLE.

Mrs. W. P. French and daughter, Mrs. Belle Walker and son are visiting Mr. and Mrs. Grover French at the home of Mrs. Sue Hauser.

Leta Fern Doulboir daughter of Marvin and Grace Doulboir died at her home seven miles from Pittsfield, Wednesday evening.

The little child was coming home from school and got in a wagon to ride down a rocky hill and when she fell out the wagon wheel ran over her head, she lived from 3:30 till eight o'clock that night.

Sae was laid to rest at Blue River cemetery at Detroit Ill.

Those who went from here were: Mr. Grover French and wife, Mrs. W. P. French and daughter, Mrs. Belle Walker.

Mr. Grover French leaves Sunday morning for Kersey, Ind., where he goes to work on a dredge boat for McWilliams.

Mr. Paul Beebe, the instructor in cello at the Illinois College Conservatory, will play a solo, "Melodie," composed by Wm. E. Kitch, director of the Conservatory.

SALVATION ARMY PLANS  
FOR TAG DAY SATURDAYLocal Corps Seeks to Raise Fund for  
Annual Outing.

For several weeks past under the leadership of Capt. J. A. Mace of the Salvation army special services have been in progress and have been well attended. There have been thirty conversions thus far and the Salvation army local work is now in a better state than has been true for some time, and the interest in the meetings is still unabated. The army officers have planned for tag day next Saturday, Sept. 18, when an effort will be made to raise funds for the continuance of the local work and also for the annual outing to be given poor children. This outing is to be given on Saturday, Sept. 25, and preparations are well under way to make it a day of pleasure when the children will long remember.

## LESSONS IN STACKING.

A goodly number of farmers gathered in the basement of the Ayers National bank yesterday to witness the methods of stacking as shown by James A. Groves. The gentlemen had a lot of miniature sheaves and gave a number of lessons in the all important art of putting up small grain in sheaves so it will keep. Keep the middle full and solid was the main slogan and that with other suggestions was very valuable and showed the farmers in attendance some good things in the way of putting up grain.

Mr. Groves has been in Russia for some time and had with him some posters of harvesting machinery with words in the Russian language and they also were objects of considerable interest.

## SEE AMERICA FIRST—PUGET SOUND

Puget Sound was constructed in a very short time, but lay in a neglected and disheveled condition until the early seventies of the last century. It forms the northwest corner of the United States and makes this country look as if someone had bitten a chunk out of it in a moment of great ill-feeling. It is about 150 miles long, but is so littered up with islands that it does not appear to be very wide. A strong man can see across it anywhere. This, however, is because Puget Sound is decorated on both shores with mountains of great size and dignity. One of the pleasantest tasks in America is to stand at Seattle or Tacoma and look across Puget Sound at the Olympic Mountains. Owing to the fact that they are covered with fog in winter and with forest fire smoke in summer, this is a rare privilege. Old settlers in Seattle date even from the last time they saw the Olympics.

Puget Sound is a beautiful and harmonious collection of waters, it

is famous for being the most peaceful body of water on the globe, which accounts for the phenomenal growth of Seattle and Tacoma. They have been populated by travelers who are subject to seasickness and have gazed upon the calm sound waters after having endured \$135 worth of ill health with tips extra on the Atlantic.

The greatest forests left in America come down to the edges of Puget Sound and the buzz-saw and salmon cannery work overtime along its shores. The United States almost went to war over this collection of waters in the forties and then forgot all about it for thirty years. Now it is lined with roaring cities which grow two acres every night and like nothing better than to cut down a 300-foot fir tree and build a 400-foot skyscraper in its place. Over six hundred thousand people now live around the Sound, though forty years ago the traveler who dropped his matches in these waters would have had to travel 150 miles to find the nearest cigar store.

Steamships from China, Japan, Europe and Alaska jostle each other in Puget Sound and more motor boats than can be found anywhere else on earth navigate its waters. It would take an industrious man 100 years to seek out all the beauty spots in this region with a motor boat, and many earnest, enthusiastic skippers are putting off their deaths indefinitely for this reason.

NEW BOOKS AT THE  
PUBLIC LIBRARY.

A collection of books and pamphlets on canning and preserving has been gathered together at the Public Library. In addition to the government pamphlets issued under the Bureau of Chemistry and containing the latest and best methods for home canning of both fruits and vegetables there are many cook books which give good ideas.

One of the finest of these is Berry's Fruit Recipes. This contains many unusual recipes and contains hints for the use and serving of fruit as well as for canning and preserving.

The nutritive value of fruit is well known and as Mr. Bailey, professor of chemistry and director of chemical laboratories in the University of Kansas says, "Jelly is one of the most desirable fruit products because it is concentrated fruit juice, free from seeds and other waste parts of the fruit. It contains enough cane sugar to give an agreeable flavor and it is firm enough to retain its shape when poured from glass container and yet is not gummy or stringy." Principles for the making of jelly follow in his book "Source Chemistry and the Use of Food Products." His book is especially good for its statements of principles.

Mrs. Rorer has a little book on canning which contains recipes for various sorts of pickles.

These books are together at the Library. If what you want is not in, it may be reserved without charge.

## FORMER RESIDENTS HERE.

The venerable J. A. Carille, of Atlanta, Neb., is visiting his former home which he left many years ago and with his wife has also been to a home back of this, the one in which he was born, an old stone house near Phoenixville, Pa. The old house, built before the revolution, is still in good condition for in those olden days they built houses to last and last a long time.

In early life Mr. Carille came to this country and lived here for some time and here too it was that he enlisted in Capt. Barbour Lewis' famous Co. G, First Missouri cavalry. Since coming here he has had the pleasure of meeting a number of his comrades, Riggs Taylor, John W. Melton, Capt. W. A. Kirby, Capt. Jno. E. Wright, George VanZandt, Henry Maul and some others. He was pained to hear of the death of C. W. Matthews and James Magill, who were killed some years ago in a mill. Though nearing the eighty mark Comrade Carille is still hale and hearty and bids fair to live a good while yet.

Many Kinds of Rheumatism  
One Sure Mode of Treatment

Authorities Say Don't Use Liniments. Treat It Through the Blood. You Can't Rub It Out!

Whether your trouble is Sciatica, Lumbago or the dreaded Arterial Rheumatism, the answer is the same. You must treat it through the blood. That is the only way to rid the system of uric acid, purify the blood and revitalize the nerves. If the blood is freed from impurities, Rheumatism must go. This in short is the exact knowledge gained by the research laboratories of the S. S. S. Co., in Atlanta. There tests have been made for fifty years. They know what Rheumatism is. They know that S. S. S., the remarkable blood tonic, which they originated, will relieve you of Rheumatism. Take S. S. S. today. The complete recovery of thousands of sufferers by the use of S. S. S. is positive proof that you can be relieved. S. S. S. is a blood tonic—a purifier that restores the blood, revitalizes it, cleanses it, makes it pure as it was before it became poisoned with impurities. S. S. S. gives it strength to drive out these impurities—the uric acid and organic poison and with it the Rheumatism. Get S. S. S. at your druggist's. If you need special advice, write to S. S. S. Co., Atlanta, Ga.

You find—in the 1916 Detroit Electric—an abundance of power—smooth, resistless power that enables you to climb any hill and pull through heavy roads easily and surely.

This power flows from the batteries in a perfectly continuous stream. There are no explosions to jar and tire you and batter the mechanism. You seem fairly to float along over the roads. And because there is no over-powerful engine pounding away at 2000 revolutions per minute as in gas cars the costly bills for repairs, adjustments and replacements which burden many motorists do not trouble the owner of a Detroit Electric. If you have never ridden in the modern Detroit Electric there is a very real pleasure awaiting you on your demonstration trip.

## MOLINE WINS SECOND HALF OF FLAG RACE

Bloomington, Ill., Sept. 11.—Moline won the second half of the Three Eye flag race today when the elements caused both games at Moline to be postponed. Even though Peoria wins both of her games from Quincy Sunday the Distillers could not pass Moline. Davenport, the inner of the Championship the first half will meet Moline in a seven-game series beginning Thursday.

## 1200 LAND OWNERS FIGHT COAL COMPANY

Lynchburg, Va., Sept. 11.—Twelve hundred occupants of some 146,000 acres of valuable coal, mineral and timber lands in Buchanan county are fighting ejectment proceedings brought in the Federal District Court here by the Virginia-West Virginia Coal Company of Charleston, W. Va. Two of the cases will go to trial on Monday as test cases, and an agreement has been reached that the judgment in the test cases is to be entered in fifteen similar cases filed here.

The coal company seeks to oust the present occupants of these various tracts, some of whom hold title dating back prior to the Civil War. There are 1,200 defendants named in the 17 writs.

## BOSTON SOLONS HIT THE TRAIL.

Boston, Sept. 11.—Jerry Watson and Jimmy Storrow will hit the trail today. From City Hall where they hold forth at polished desks as councilmen, they will go twenty miles. It will be a twenty mile walk, as well as a twenty mile walk, as Jerry can keep up. The Back Bay blue-bloods are laying heavy odds on Storrow, and the alley gangs are backing their hero, Watson. The trail will begin at City Hall, and Storrow will blaze the way. Various rumors are in the air. It is said the foxy trail-blazer will pick out high hills, to thwart his fat and heavy opponent. Somebody has told Jerry's locker with crutches and walking sticks. And one political jester has rigged up a windmill that will lift Jerry's feet every fifty words.

## 'MORNING GLANCES' (By Gosh)

The Boston Braves, last year's world's champions, defeated the Cubs at Chicago yesterday in easy fashion. Hughes held the Cubs to five hits while the Braves gathered 14 off of Pierce, Humphries and Zabel.

While the Braves were walloping the Cubs at Chicago the Red Sox were whipping the White Sox at Boston. It was a game full of thrills with tied scores and players being put out of the game. Chicago took the lead in the third when they bunched hits and gathered three runs. They added one in the seventh and it looked like a victory. The Red Sox got after Russell in the ninth and made three runs tying the score. In the eleventh they got the winning run off of Wolfgang who took the rubber with the bases filled and allowed Heblitzel to single.

St. Louis beat Brooklyn in the Federals yesterday by a score of 2 to 1. Dolan of St. Louis made an error in the ninth inning which gave Brooklyn her only run and which also was the first run that was scored made a triple in the St. Louis team's half of the ninth with one on and scored a run and then scored the winning run on a sacrifice fly.

New York lost to Detroit Saturday by a score of 4 to 3. Ty Cobb scored two of Detroit's four runs.

Washington beat Cleveland yesterday by a score of 5 to 4. Collamore lost his own game in the eighth when Gandil singled and took second on an infield out and scored on two successive wild pitches.

Can you believe it? Uncle Hans Wagner was put out of the game at Pittsburgh yesterday by the umpire. Uncle Hans must have become extremely peeved to get such a sentence. It is the first time we remember in all of Wagner's long career that he has been put out of a game. We will bet that something was wrong with the umpire's decision or Wagner would not have kicked.

St. Louis beat Philadelphia a double header yesterday hitting the ball hard in both games.

## BOSTON DEFEATS SOX IN ELEVEN INNINGS

HOBLITZEL POUNDS IN WINNING TALLY.

Game Is Marked By Altercations Over Decisions and by Din of Horn Blowing and Shouting Never Equalled in Boston Except in World Series Contest.

Boston, Sept. 11.—The Chicago White Sox and the Boston Red Sox went eleven innings of tense situations, starting plays and timely hitting to a Boston victory, 5 to 4. Today, Boston had tied Chicago's three run lead by a ninth inning rally. The White Sox batters hit heavily in the third inning, four hits, including Murphy's double and Fournier's triple, counting three runs. After the inning, Umpire O'Loughlin put Boston's battery, Foster and Cady, off the field for objecting to decisions.

The Rex Sox gained a run in the fourth on Speaker's triple and Lewis' hit and Chicago added one in the seventh on two singles off Mays, who had succeeded Foster and J. Collins' steal. Russell held Boston to four hits when the ninth inning opened. Speaker then doubled, Gardner singled, Lewis grounded out, Barry singled, Carrigan grounded out and Henriksen, pinch-hitting, got a hit for the three runs needed to tie.

For the extra innings Carrigan called on Leonard to pitch and he fanned four of the six Chicago batsmen who faced him.

Faber who succeeded Russell, passed two Red Sox in the tenth, but J. Scott retired the side, only to go wild himself in the eleventh when after Barry's hit with one out, Scott passed Carrigan and Leonard. Wolfgang was charged with Chicago's pitching burden, with the bases full.

It was Hoblitzel, who had succeeded Gainer at first base, who cracked a hit to right field, scoring Barry with the deciding run.

The game was marked by frequent altercations over decisions and by din of horn blowing and shouting from grand stand and bleachers never equalled in this city except in a world's series contest.

## U. S. PUBLIC HEALTH SERVICE

Typhoid Fever a Fact, Not a Theory. Our scientific knowledge of the disease is most complete. For thirty years the causative organism has been known and studied. Its habitat has been surveyed, and associating organisms classified, and the many facts relating to the life of the bacillus fully recovered. For nearly twenty years we have been in possession of most delicate blood tests for the recognition of the disease, tests which are not only of great diagnostic worth but which should actually assist in the prevention of the infection. Our knowledge of the dissemination of the disease, in both its epidemic and endemic forms, is consequently exact and definite. Not content with accomplishments along these lines the medical profession, in view of the continued morbidity, has even devised methods by which the public may continue to live under insupportable conditions with perfect impunity, so far as this particular disease is concerned. In other words, persons may take into their systems the filth which produces disease and death and yet, if the preventive treatment has been received, apparently remain free from harmful effects.

Eighteen Thousand Deaths a Year. In spite of these efforts and accomplishments the frightful mortality continues and the disease this year will again usher 18,000 victims to their graves. Plainly, the practical application of our knowledge is far and away behind the scientific data in our possession, and a large proportion of the population is ignoring the very principles which have been so well established. For this reason, health officers realize that further steps toward prevention must be the result of more general enlightenment and the better education of the mass of the people.

The avoidance of the infection rests primarily upon community action. The proper protection of water supplies, the eradication of filth and all its accompaniments, the attainment of a decent standard in the disposal of excrementitious material, the regulation of dairies and the safeguarding of milk are all problems which only communities as a whole can settle. Nevertheless, this does not absolve the individual citizen from responsibility, and he can do much for his own protection.

More Ambulance Men. OFF FOR FRANCE. New York, Sept. 11.—A. Platt Andrew, Jr., former Assistant Secretary of the Treasury, is sailing for France today with a new squad of ambulance men whom he has recruited from wealthy American families. The American ambulance service in France and Belgium now has a total of 130 ambulance cars and 20 supply cars in the field. Last July 7,550 wounded were carried from the field to the hospitals by these daring young Americans.

Mr. Andrew plans to spend another year in the ambulance service, or till the end of the war. His headquarters in France is at Pont-a-Mousson. For the past eight months he has had charge of the ambulance volunteers as inspector-general.

## TABLET TO BRITISH IN OLD NORTH CHURCH.

Boston, Sept. 11.—A tablet to honor the memory of 250 British soldiers and sailors, who fell at the battle of Bunker Hill, will be dedicated at the Old North Church, from the tower of which flashed the lantern signal which sent Paul Revere on his memorable ride.

The tablet will be placed in position near the chancel in the church on Monday. The project had the approval of patriotic societies here and of King George. Many of the British wounded were cared for in Boston, and a number of them were buried here.

## PROSECUTE ILLINOIS BEAUTY AND HER AFFINITY.

Aurora, Ill., Sept. 11.—Mrs. Katherine Faxon of Hinckley, Ill., known as the most beautiful woman in this section of the state, will be arraigned in court on Monday, with F. S. Gibbs, her affinity. The woman's husband has started suit for divorce. The affinities were arrested in a cottage at Peoria after they had eloped. The husband and a detective traced them to the cottage.

## DEDICATE MARKERS AT BRANDYWINE.

Chester, Pa., Sept. 11.—The 138th anniversary of the Battle of Brandywine is being celebrated with special exercises today at the Birmingham Friends Meeting House. Federal Judge O. B. Dickinson is in charge of the affair. The markers on the battlefield are in place and will be dedicated today.

## SWISS SCIENTISTS HOLD LONESOME MEETING.

Geneva, Sept. 11.—The Societe Helvetique des Sciences Naturelles will open here tomorrow its 97th annual session, coinciding with the 100th anniversary of its foundation. On account of the war, the celebration will be very quiet and the usual invitations to foreign scientific bodies or to men of science have not been issued.

## RESERVISTS CHEER U. S. DEPART FOR ITALY.

Boston, Sept. 11.—Fourteen hundred Italian reservists today boarded the White Star liner Sretic, which will sail for Naples. The Italians gave many cheers for the United States, and were cheered by a large gathering of friends at the dock.

## I Treat Chronic Disease

WITH MY NEW NEUROPATHIC SYSTEM OF TREATMENT, I WILL BE AT THE HOTEL DUNLAP FROM 9 A.M. TUESDAY, SEPT. 14, UNTIL 4 P.M. WEDNESDAY, SEPT. 15.

IF YOU SUFFER, COME AND CONSULT ME FREE.

Dr. Edwin O. Gable.

My neuropathic system of treatment means treatment through the nerves and circulation and relieving congestion. All distressed conditions are prolonged by disturbance of the circulation, congestion, pressure on, and weakening of the nerves; pressure on the glands or thickening of the tissues. The Neuropathic system of treatment cures chronic conditions by giving renewed activity to the vital forces in the nerves, renewing circulation, relieving congestion and in this manner causes absorption of the disease deposits, removing swellings and thickening of the tissues and restoring normal conditions. No organ can remain diseased when the blood is circulating normally through it. This is the principal on which this treatment is founded. No disease should be incurable as long as the tissues are not too badly destroyed. Disease and weakness in any portion of the body should be curable up to that stage. I have had the greatest success in curing many cases of all manner of weakness and nervous troubles of the heart, pain around the heart, shortness of breath, palpitation, irregular pulse and fainting spells. Read what Mr. Watkins has to say.

April 21, 1915. I had been a sufferer with asthma and heart trouble since childhood and for the last four years had suffered agonies with it almost continuously. I could not sleep nor work and on the slightest exertion would have to gasp for breath, had smothering spells and dizzy spells and at times felt that the end had come. I had tried many doctors and treatments without any benefit, but three months ago I decided to consult Dr. E. O. Gable and started treatment with him, and since then have improved steadily and am now feeling fine, have no more of the old awful symptoms and know that I am cured. I can honestly and cheerfully recommend any one suffering as I did to him for honest treatment, for he has done wonders for me. J. H. WATKINS. R. 6, Mattoon, Illinois.

This is but one of the many cases that show the great cures I am making with this new system of treatment.

I have had wonderful success in curing all curable forms of kidney troubles, congestion of the kidneys, Backache, Clogging up of the Kidneys, Irritation of the Bladder, Catarrh of the Bladder, Pain in the Bladder, and all weaknesses connected with these organs. I have had great success in curing Rheumatism, both acute and chronic, cleansing the rheumatic poison from the blood, creating new, healthy conditions; so that they are completely cured. It is very successful in blood diseases, skin troubles, such as Eczema, Pimples, etc. It gives immediate relief to Stomach Troubles, Dyspepsia, Fermentation, Constipation and Liver Troubles, Nervous Disease and most forms of Chronic Disease and Weakness of the Eyes, Catarrh and Deafness, Head Noises and Sick Headaches.

I have had the greatest success in curing many old chronic cases where other treatments had failed. No matter how long you have suffered or what your disease is, I ask you to come to me. I will examine you and tell you frankly whether or not you can be cured by this new system of treatment. Many people have come to me in your city. They had about given up hope, and have been restored to health by me. I can give as many private references as you wish of the great results that I am getting with this system of treatment. Remember, I accept no case by mail. I must make a complete examination of the case first. I do this for you free of charge on this trip.

## LAND O'NOD STORIES

## A JOURNEY TO ANTLAND

Billy Be By Bo Bum sat in the shade of an apple tree at the edge of the oat field eating a big molasses cookie. Between bites he pulled the ears of Fuzzy Wuz, his collie puppy, who barked as loud as he could and pretended to bite Billy's hand. But Fuzzy Wuz wagged his tail so hard it seemed it surely must come off, so Billy knew he wasn't angry and rolled his over on his back. Fuzzy Wuz barked louder than ever but his bark said, just as plainly as could be, "I am just the happiest dog alive and am having more fun than you can shake a stick at."

Suddenly Fuzzy Wuz gave a yelp of pain and jumped up so quick! he knocked the cookies out of Billy's hand. Then he sat down and commenced scratching and pawing at his nose in the most comical manner. Billy ran over to his pet, took his head in his hands, and saw a big brown ant had bitten him on the nose. Billy knocked off the ant, and Fuzzy Wuz, still yelping as though his heart would break, put his tail between his legs and started for home as fast as he could go.

Billy started to follow, then remembered the cookie he had dropped and ran back to get it. But when he reached the apple tree, he found the cookie covered with ants. Hundreds of the tiny insects swarmed over the cake, feasting on the delicious crumbs. Billy was so mad he sat down and started to cry, but the first big tear had hardly rolled off his cheek when he heard a faint, squeaky voice calling his name.

"Why are you crying Billy Be By Bo Bum?" said the voice. "Don't you know that little boys who cry when there is nothing the matter miss lots of bully fun?"

Billy was so surprised he nearly jumped out of his shoes, for although he looked all around he could not see any one. Another big tear started to roll down his cheek when he heard the same shrill little voice calling him again. Billy rubbed his eyes and looked up in the apple tree. Then he looked beneath the tree trunk, and last of all he looked all around on the ground, but he could not see hide nor hair of the owner of the voice, which kept calling, "Oh Billy Be By Bo Bum, Oh Billy Be By Bo Bum, aren't you going to speak to a fellow?"

Billy was beginning to get frightened and had just about made up his mind to run home when he heard a laugh right behind him. He spun around on his heel like a top, and there, astride the branch of a briar bush, sat Tinker Teedle Tee, a funny little old man no larger than your thumb. He was so fat he

looked for all the world like a lively puff ball perched on two stubby legs, and in place of a hat he wore a weeny copper kettle, the handle of which was hidden by his long, white whiskers. The cutest red coat and vest covered his chubby body; his pants were green, his stockings white, and the toes of his pointed shoes turned up until they nearly touched his knees. But most wonderful of all, a pair of butterfly wings were folded neatly on his back.

It was his old friend the merry little elf, one of the good fairies who make their homes in the hearts of flowers and live on dew drops and honey and are so old and wise they know all the secrets of the woods and can tell you the history of every dweller of the Green Forest.

"Why are you crying?" Billy Boy?" demanded Tinker. "Because those horrid old ants are eating my cookie!" replied Billy, and the corners of his mouth turned down until he looked for all the world like the little boy who lived on Grumble Corner of Cross-patch Town. "I don't see what ants were made for anyway. They're nothing but lazy, good-for-nothing bugs."

"Oh you think so, do you?" retorted Tinker Teedle Tee. "Well just let me tell you that those lazy, good-for-nothing bugs, as you call them, are the busiest, hardest working little fellows alive."

"What do they do?" demanded Billy.

"Work, Billy Boy, work. From morning until night they do nothing but work, and if you did half as much in a day as those 'lazy ants,' you would be just about the most tired little boy alive when it came bedtime. And they don't grumble or complain like some little boys I know, they're too busy to even think of anything but their work."

"What work does an ant have to do," asked Billy. "I never saw them do anything but run around in the grass."

"Well you can make up your mind that whenever you see an ant running around, he is on a mighty important errand. Just remember, they have their city to care for, they have to build new homes, gather their food, care for their children, and, oh they have a thousand and one things to attend to."

"Their city, do ants live in a city?" asked Billy in surprise.

"They certainly do," replied the elf, "and a mighty snug little city it is too, with everything as neat and clean as a new pin."

And next week I'll tell you how Billy and Tinker visited the ants' underground home.

Charles Gibbs of the Mound Road was in the city Saturday greeting some of his friends and attending to business affairs. He gives an interesting account of his recent visit to the Pacific Coast.

Mr. and Mrs. Clifford Wiswell and their daughters, Mabel and Agnes, and Miss Millie Wiswell, sister of Mr. Wiswell were among the shoppers in the city Saturday from the vicinity of Grace Chapel.

Miss Maybelle Swerinton has returned to Davenport, Iowa, after a visit at the home of her parents, Mr. and Mrs. A. D. Swerinton on East Greenwood avenue.

Charles Samples after a vacation visit with his parents, Mr. and Mrs. J. T. Samples of Caldwell street, will leave this morning for Kankakee where he will resume his duties on the road for the John Deere Plow Co.

Richard Seymour and Mr. and Mrs. Bird Seymour of Franklin were shopping in Jacksonville Saturday, returning home after a sojourn of three weeks in Denver and other points in Colorado, where they visited relatives and friends.

Mrs. Ellen Kile of Murrayville was in the city Saturday en route home after a visit with her son, George A. Kile and her daughter, Mrs. Fred Foster at Alma, Marion county. She was accompanied by her granddaughter, Miss Lulu M. Foster, who will spend the winter and attend school in Murrayville.

Mrs. F. C. Drusler left yesterday morning over the C. & A. for Chicago where she will meet Miss Mayme Metzler of Fostoria, Ohio and together they will visit the Panama Exposition and other points of interest on the Pacific coast and will be gone about two months. Miss Metzler is a sister of Mrs. J. C. Miller of S. Clay Ave.

Rev. S. M. Morton of Taylorville, was the guest of Mr. and Mrs. R. E. Stevenson yesterday. Today he will be in Woodson to formally declare the pulpit of the Presbyterian church there vacant. Dr. Morton was appointed by the Springfield presbytery for this service. Rev. Mr. Coleman recently resigned and has gone to another presbytery.

FOREIGN CORRESPONDENCE  
(By The Associated Press.)

London, Sept.—(Correspondence of The Associated Press)—The Star and Garter Hotel at Richmond on the Thames, which has just been purchased by the real estate men of Great Britain and presented to the Queen as a Red Cross Hospital for disabled officers, is probably the most famous hotel in England.

For something over 150 years there has been a hostelry of this name on the brow of Richmond Hill, presenting the finest view of the winding river that is obtainable anywhere within a day's journey of London. The view from the windows of the Star and Garter has inspired poetry from Wordsworth to Maurice Maeterlinck.

"Bursts in a flood of glory on the view. Still bright, still varied and forever new."

An auctioneer's advertisement printed 130 years ago described the property as follows: "These truly desirable and valuable premises, the Star and Garter on Richmond Hill, the favorite spot for centuries past of Princes, and the admiration and resort of the first nobility and taste in Europe; replete with every requisite convenience for the reception of all ranks in the public line, possessing the most extensive and delightful views of the Thames, the whole forming one of the most enchanting pictures in Great Britain."

One of the notable occasions of the big hotel was a breakfast served on June 10, 1814, at which were present the Prince Regent of England, the Emperor of Russia, the Duchess of Oldenburg, and the King of Prussia, with his sons and nephews. The company, which also included Generals Blucher and Platoff, had journeyed out from London by coach.

Queen Victoria was a frequent visitor to the hotel, particularly during the earlier years of her reign, and there were few of her royal contemporaries who did not at one time or another partake of its hospitality during the decade preceding the fire of 1870, which destroyed the greater part of the luxurious building.

Within two years it was rebuilt in even more magnificent fashion, and for the next few years was at the zenith of popular favor. King Edward, when a prince of Wales, was often seen there. The cook was excellent, the wines unimpeachable and the cost heavy enough to keep away the "mob." Given a fair pair of horses, it was a delightful drive of just the right distance from Hyde Park Corner, the center of fashionable London, on a fine summer evening.

Not only were the smartest of private dinners given there, but the great City Companies held their banquets in the spacious pavilion and statesmen and celebrities of every degree met beneath its roof. But with the dawn of the present century the attractions of the Star and Garter waned. It is the conventional thing to say that the coming of the automobile killed its popularity. Other causes contributed. The road instead of running through pleasant open country, was rapidly becoming an artery of heavy omnibus and tramcar traffic. The era of the fashionable restaurant in town had begun, and it was no longer necessary to go so far afield for a good luncheon or dinner. Ten years ago, the hotel closed its doors. There have since been rumors from time to time as to reopening it as a palatial boarding house or rebuilding it into a block of luxurious flats, but none of the schemes came to maturity.

In its new use as a permanent hospital for officers, it will preserve for a work of national usefulness a site of rare beauty. The hotel is almost completely surrounded by park lands, which have been gradually acquired by the London City Council to give the public easy access to the banks of the Thames.

London, Sept.—According to figures issued by the Registrar General, the rate of growth of the population of England and Wales has greatly fallen off. The excess of births over deaths in June quarter was 27,418 below that for the same period of last year. The excesses for the four last comparative periods are:

1913 ..... 74,515  
1914 ..... 101,933  
1915 ..... 105,727  
1912 ..... 102,293

The births in England and Wales in June quarter, 213,991, makes the lowest recorded since the establishment of civil registration. The figures are 12,973 below the same period last year and correspond to an annual rate of 22.9 per thousand or 3.3 below the ten years average for the June quarters.

Deaths, totalling 138,579, were ten highest for any June quarter in the decade and were 14,445 in excess of June 1914.

Marriages, probably owing to the war, were 43,999 in excess of last year at 55,495.

London, Sept.—The business of the Bankers Clearing House, which is tucked away in a court just off Lombard street, has grown to such an extent that larger premises have to be found to carry on the work.

Forty years ago about fifty men got through the work daily, now there are five hundred busy from morning till night and the din created by 200 mechanical reckoners working at high pressure is terrific.

In 1868 the total amount dealt with was 3,425 millions sterling, in 1914 it was 16,436 millions, and the latest figures available indicate that the work is still increasing, showing how universal the check has become for payment.

James Hitch of Woodson was among the Saturday traders in the city.

## Modern Dentistry

Our crown and bridge work is the only method in dental science that is permanent and which perfectly equalize the strain of mastication. It is the only possible method which permits the fullest enjoyment while eating, because the functions of the whole mouth can be exercised. This is impossible in the old-fashioned plate. These teeth look like your own teeth, feel like your own teeth and to all intents and purposes, are your own teeth; and with moderate care will last a lifetime. Only gold and porcelain are used in their construction; but, notwithstanding, the cost is comparatively low. Estimates free.

### FORMER RUSSIAN SUBJECT AWAITS NEWS FROM WAR ZONE

Ireal Freinberg Anxious About Relatives Since Kaiser's Troops Have Taken Brest-Litovsk.

Ireal Freinberg, a resident of Jacksonville for several years but formerly of Russia, was in the Journal office Saturday afternoon making inquiries as to the best means of getting mail to his home town in Russia, recently captured by the Germans. Mr. Freinberg has been in this city for about three years in the employ of J. Capps & Son, making his home at 312 North Church street. He is the only member of his family in this country, his parents and all of his brothers and sisters residing in Brest-Litovsk. About two weeks ago this place was taken by the Kaiser's troops.

Mr. Freinberg has not heard from any of his relatives for several months and is anxious to get some word from them. He says that in times of peace it takes about twelve days for a letter to go from Jacksonville to Russia. In these strenuous days across the Atlantic it is not possible to tell just when mail will be sent or if sent, delivered at its proper destination.

Mr. Freinberg was uncertain as to how he should send a letter, now that the Tatars were in possession of his home town, whether he should write the letter as usual in Russian or whether he would transcribe the same in the German language. While it is probable that the letter addressed to Russians will be opened by the German officers in charge there is just as much likelihood of the letter reaching its destination safely in the Russian as in the German language. Mr. Freinberg is speaking of the Russian soldier said they were not the fighters the Germans are and that they seem to lack the fighting spirit. He says some people seem to expect the Russians to duplicate their Napoleon victory over the Germans, allowing them to advance into the country, then surrounding them and cutting off their retreat and slaughtering them, but adds that any one who expects this will be disappointed because "the Russians are not fighting." The weather and seasons of the year where the Germans and Russians are now struggling is much the same as we enjoy in Illinois and Iowa. It is to be hoped that Mr. Freinberg will receive good news from his parents shortly and learn that all are safe.

**LIGHTNING STRIKES BARN.**  
A barn on the farm of Owen Kierman, one and one half miles south of Alexander, was struck by lightning during the Friday night storm and burned to the ground. Mr. Kierman carried insurance on the property. He saved some harness stored in the building but three tons of hay, which recently had been harvested, was burned.

### CASES OF INTEREST.

#### Censorship of Motion Pictures

A novel and interesting question involving the censorship of motion pictures is decided in Mutual Film Corporation v. Industrial Commission of Ohio, 35 Sup. Ct. 387. The Film Company claimed that the provisions of 103 Ohio Laws, 399, for the creation of a board of censors whose consent must be obtained prior to the exhibition of motion picture films, is violative of the constitutional right of freedom of speech and publication. The company furnishes news regularly through the medium of a series of motion pictures known as "The Mutual Weekly." "Are moving pictures within the principle, as it is contended they are? They, indeed, may be mediums of thought, but so are many things. So is the theater, the circus, and all other shows and spectacles, and their performances may be thus brought, by the like reasoning, under the same immunity from repression or supervision as the public press—made the same agencies of civil liberty. It cannot be put out of view that the exhibition of moving pictures is a business, pure and simple, originated and conducted for profit, like other spectacles, not to be regarded, nor intended to be regarded, by the Ohio Constitution, we think, as part of the press of the country, or as organs of public opinion. They are mere representations of events, of ideas and sentiments published and known; vivid, useful, and entertaining, no doubt, but as we have said, capable of evil, having power for it, the greater because of their attractiveness and manner of exhibition. It was this capability and power, and it may be inexperience of them, that induced the state of Ohio, in addition to prescribing penalties for immoral exhibitions, as it does in its Criminal Code, to require censorship before exhibition, as it does by the act under review. We cannot regard this as beyond the power of the government."

**N. E. SWIMMING CHAMPIONSHIPS**

### JUDGE EPLER MAKES ARGUMENT FOR ALDERMANIC FORM

Declares Commission Plan Gives Too Much Authority To Small Number of Men—Veto Power For Mayor's Means of Protection.

Judge Carl E. Epler of Quincy talked before a fair sized audience in the circuit court room Saturday evening on the aldermanic and commission forms of government. Judge Epler confined his talk mainly to statistics of the working of the commission form in various states. He also gave much history connected with Quincy's progress under the aldermanic form and spoke of the commission form on the two occasions on which it was voted on in Quincy. The speaker laid special stress on the fact that the last time the question came up the women were voting and they also registered a majority against it.

Judge Epler was introduced by W. N. Hairgrove. Mr. Hairgrove in his introductory remarks said that it was little use to introduce the speaker as he had been a resident of Jacksonville long before he (Mr. Hairgrove) was.

Judge Epler in his plea for the aldermanic form of government laid special emphasis on the added cost of commission form of government. He also said that the recall as drafted in the Illinois law meant nothing as it would be almost impossible to get the required number of names to a petition. He spoke of the initiative and referendum and said that the people had these provisions under the aldermanic form. Another objection that he advanced against the commission form was that it placed the power in the hands of three men.

A few of Judge Epler's thoughts are given.

**Quincy's Financial Record.**  
"It is a great pleasure for me to appear before you. I was born and raised here and received my education in Jacksonville. Therefore I feel that I am not among strangers. I do not intend tonight to take up the question of the fitness of your present officials, but to discuss the merits of the aldermanic and commission forms of government and give you my views on them. The question of a form of government for a city is a serious thing. If a community has no form of government it is much easier to select one. But if a city has a form of government its citizens are likely to say we will let well enough alone. The people of Illinois cities should not take the success of the commission form in other states as a criterion, but rather should take the law as it stands in Illinois."

"We have the aldermanic form of government in Quincy, having adopted the general law in 1895. The city in the early days voted nearly \$800-

000 to railroads and thirty years ago had an indebtedness of nearly \$2,000,000. The city now has a bonded indebtedness of only \$163,000 and in addition has raised over four hundred thousand dollars with which to purchase the water system. We expect to have the bonded indebtedness paid in a few years and also have the money necessary to buy the water plant."

"I believe that the people want a government that they can go to sleep over at night. Under the aldermanic form of government you have the veto power of the mayor and also a remedy whereby a two thirds vote can pass an ordinance over his veto. The mayor has the appointive power but his appointments must be approved by the city council. In the commission form of government three members constitute a quorum, the mayor has no veto power and no special power in the appointment of officers."

**Too Much Power for Few Men.**  
"If there is logic in having five men to govern municipalities why not have five govern the state and five to run the United States government. If it is logic to have a few men and they give better government why not have a king. That is the trouble over in Europe now, too much King."

The speaker said that evidently the legislature realized the weakness and fallacy of the commission form law from the fact that they made it applicable only to cities under 200,000 thus eliminating Chicago.

"Quincy pays its officers under the aldermanic form \$4,200 and gets the same if not better service than they would get under the commission form. In a city the size of Quincy the commission form of government would cost \$15,500."

"In Seattle the mayor was recalled but when I visited that city the past summer he was again in office. The city of Nashville has the commission form of government and some time ago it was placed in the hands of a receiver. You should not take into consideration the Commission form of government in Galveston as it is not a fair comparison. It was put into operation to meet a great emergency and was backed by martial law and large appropriations from both state and federal government."

**Government Depends on Men.**  
"No form of government is a panacea for all ills of the body politic. But I believe that the Aldermanic form is superior to the Commission form. Under the commission form of government the mayor and commissioners fix their own salaries and those of all employees. They appoint all officers and also have the power of discharging them. If a commissioner resigns or dies the others appoint his successor, thus the matter is taken entirely out of the hands of the people."

"Until the state of Illinois reforms the commission form of government I am in favor of the alder-

manic form. I believe in the civic pride, patriotism and honesty of the great body of people. After all any form of government depends on the kind of men elected to carry it out. It is the duty of all citizens to see that such men are elected. I hope that at the election soon to come that you will do what you believe to be the best for yourselves and your city."

**Mr. Hairgrove Makes Answer.**  
W. N. Hairgrove then addressed the audience briefly. He paid his compliments to some of the speakers who had addressed the meeting Friday night. Referring to Dr. Bowe, Mr. Hairgrove said that what the Doctor said in the main was correct and he believed him to be honest. He said he and Dr. Bowe were both democrats and both agreed on the initiative and referendum. Dr. Morey, Mr. Hairgrove said, had made the statement that nothing had ever been done under the aldermanic form of government. The reverse was true Mr. Hairgrove said as every improvement that had been made had been made under the old form of government. In speaking of the commission form of government Mr. Hairgrove said that if a city attorney had been elected by the people the rate question would have been settled long ago. He rapped the former administration by saying that when he as city attorney wouldn't do their bidding that they made it so

unpleasant for him that he qui tant then, "the lights went out."

**HILLERBY'S GREAT SALE STARTS SUCCESSFULLY**  
The special 10-day bargain carnival inaugurated at Hillerby's dry goods store Saturday attracted a very large crowd of purchasers. It was expected that the muddy roads would interfere to some extent with the first day's sales, but the store was crowded almost from the time the doors opened. Visitors to the store were unanimous in their comment that the prices offered were remarkable and constituted an unusual buying opportunity. The offerings are all seasonable and the quality is the very best.

**WILL READ ANNUAL LETTER.**  
At the regular church service of the First Baptist church this morning the annual church letter to the Morgan-Scott Baptist association, will be read by the pastor, Rev. Percy Stephens. Delegates to the association meeting, which will be held at Winchester, Wednesday, Thursday and Friday of this week, also will be chosen by vote of the church.

**AT GRACE M. E. CHURCH.**  
The Rev. H. H. O'Neill, a former pastor of Grace M. E. church, will speak at the regular Grace church, morning and evening services today. Rev. Mr. O'Neill now has a charge in Texas.

## AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASSELIN, 606 Fourth Avenue, Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## LIGHTFOOT TAKEN TO HIS OLD HOME IN MISSOURI

Man Placed at State Hospital For Observation Now in Hands of Relatives—Is Wanted in Indiana.

Sept. 7, a man named John Lightfoot was picked up in the city. He was acting queerly and was taken before William E. Thameon, county judge, and placed in Jacksonville state hospital. Lightfoot's home is in Bowling Green, Mo., but on first inquiries not much could be learned about him.

Friday Sheriff Grant Graff received a telegram from Henry Rhtaker, sheriff of Lake County, Ind. This telegram said that Lightfoot was wanted at Crown Point, Ind., and that he would come without requisition papers. Lightfoot refused to go and the Indiana sheriff was notified. Sheriff Graff then received another telegram saying that a warrant had been issued and requisition papers were being secured from the governor of Indiana and to advise when to send officer.

In the meantime other wires were working. Saturday the father of the wanted man, Levi Lightfoot, arrived in the city from Bowling Green, Mo., and went to the Jacksonville state hospital and took possession of his son and took him to Bowling Green on the afternoon train. Now if the authorities of Indiana want Lightfoot they will have to go to the state of Missouri for him.

So far as could be learned from the sheriff's office and from Lightfoot's father he had married a woman from Crown Point, Ind. There was some trouble and she left him and returned home. It seems that Lightfoot went to Indiana and in some kind of family mixup he got into trouble. Just what that trouble is not known. It was enough, however, to warrant the Indiana authorities in asking for a requisition to return him to that state.

## NOTABLE BIRTHDAYS TODAY.

Sept. 12.  
Right Hon. Herbert Henry Asquith, Prime Minister and First Lord of the Treasury of Great Britain, is 63 years old today. The recent reorganization of the British cabinet served to strengthen his power. He was recognized as the wizard of keeping together colleagues of contrasting views and temperaments. This priceless quality of adjusting a coalition assured Asquith's success in making the new ministry an effective organ for the emergency that has arisen. Asquith gave up an income of \$75,000 a year at the bar when he became Prime Minister in 1908. He has risen step by step in the confidence of the people. He was the first minister in England to favor old age pensions, and while he was Chancellor of the Exchequer he gave old age pensions to the poor. He was born at Morley, in Yorkshire, September 12, 1852. He was educated at Balliol College at Oxford, where he made a brilliant record. Making the law his profession, he won wide recognition. He was made secretary of state for the Home Department in 1892 and chancellor of the exchequer in 1905. He has been married twice, his second wife being the former Miss Margot Tennant, one of the most brilliant women in England. Their domestic life is ideal. Gladstone made an early prophecy that Asquith would become one of the foremost men in English affairs, and it was he who gave him his portfolio in the Home Office. He is today a strong, healthy man, although his hair is white. His face is youthful and highly intelligent.

Rev. Francis E. Clark, founder of the Christian Endeavor Society, 64 years old today.

Sir George H. Perley, Canadian political leader and philanthropist, 58 years old today.

Archbishop John J. Keene of Dubuque, Ia., 76 years old today.

Hannis Taylor, former U. S. minister to Spain, 64 years old today.

Hon. Thomas G. Patten, congressman from New York, 54 years old today.

Dr. Arthur Schuster, noted British scientist, 64 years old today.

## THIS DATE IN HISTORY.

Sept. 12.  
1651—Scots taken prisoners at Worcester were brought before Cromwell and his Parliament at Acton, and sold to the West Indies for slaves or given away as dogs.

1776—Washington, with the remains of his army, entered Philadelphia, after his defeat at Brandywine. British captured the governor of Delaware.

1814—Battle of Fort McHenry, near Baltimore. The British, 8,000 strong, were blocked in their march upon Baltimore, and Gen. Ross, their leader, was killed. The fort was bombarded incessantly for 25 hours.

1829—Surrender of the Spanish army at Tampico; they were allowed to get out of Mexico. This terminated Spain's attempt to subdue Mexico.

1847—Gen. Scott began the bombardment of Chapultepec, the last defense outside the City of Mexico.

1850—The Fugitive Slave Bill was passed by Congress.

1857—Steamship Central America, from Panama for New York, totally lost in a gale; over 500 lives lost and two millions in treasure.

1869—National Prohibition Party was organized at a convention in Chicago.

1914—Germans attacked by the Allies on the Aisne, opening the world's greatest battle.

## LETTER FROM R. L. DYE

R. L. Dye has written the following open letter addressed to Dr. L. B. Morey:

"I noticed in an editorial from you, in The Jacksonville Courier, relative to the city of Jacksonville, returning to the aldermanic form of government, that you say to return to the old form would put the city back into politics and that the people trying to subvert the city and you used the word Hugger Mugger politics. Friday night, Sept. 10th, at the Court House you referred again to putting the city back into ward politics. Now, Doctor Morey, I am some surprised at your argument against the city returning to the aldermanic form of government. At a primary caucus held at the Court House last April, to nominate one Republican candidate for the board of education in the Second ward, Lou Pratt and myself were candidates. This primary caucus was purely political and on the afternoon before the primary at night, I met with Lou Pratt, Joseph De Goveia and others and we slated the chairman of the meeting. Also agreed upon the tellers and the secretary of the meeting. I was informed that you would nominate Mr. Lou Pratt at the caucus and Joseph De Goveia, committeeman of No. 5 in the Second ward would second the nomination of Mr. Pratt. This was done of course to combine the element that you represented with the element that Goveia represented. This, of course, would gain votes for Mr. Pratt and was considered a shrewd political move. You and Joseph De Goveia carried out this program to a letter—you lectured for your candidate at the meeting and gave away tickets to the voters for Mr. Pratt and in every way exercised your rights as a voter, and politician, at a purely political ward meeting. Your candidate at this caucus was successful. Now, Dr. Morey, wasn't you doing a little Hugger Mugger political subterranean at that meeting? If not please tell me what you were doing? I see now that you used as an argument against the city of Jacksonville returning to the aldermanic form of government that it would put the government of the city in the hands of ward politicians. Your argument now is as I see it, a "knock at your own game."

Richard L. Dye.

## PLACES WANTED FOR STUDENTS

Places are desired for students to work for board and room while attending Illinois Woman's college. Can recommend a number of excellent young women. Telephone or call Illinois Woman's college, Main Office.

## OUTING FOR THE CHILDREN.

Next Saturday a host of the school children in the grades in the city are to be treated to a picnic, burgeois, street car ride, boat rides and various amusements at Nichols park. The affair will be confined to the pupils of the public schools, teachers and members of the families of the children and all desiring to go must make arrangements through the principals or teachers of the public schools.

Isaac Watson has been engaged to make the song and it will be the best in all respects and it is intended to have plenty for all who attend. It is expected that there will be games and various amusements during the day and opportunity will be given to compete in different contests. An effort also will be made to have the high school band in attendance and give the children as happy a day as is possible.

## DR. CARSON

Chicago Specialist

In the treatment of Chronic Disease, will be at the Dunlap Hotel, Jacksonville, Illinois, Wednesday, Sept. 15, 1915, one day only. (Returns every 28 days). Hours, 8 a. m. to 4 p. m.

Fourteenth Successful Year in Jacksonville. Consultation and Examination Free

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and cease to return.

IS THIS THE WAY YOU FEEL?  
Tired in the morning and easily excited? Are you dizzy or nervous? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Pain of hands moist? Have you a dull, dragging pain or ache of the body, back or limbs? Have you Rheumatism? Have you Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or limbs? Have you any blood disease—scrofula, skin eruptions, pimples, bone pains, pale complexion and losing weight?

I invite you to call and investigate the Carson System of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern, up-to-date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT.  
Come early as places are always crowded.

A friendly call may save you future suffering. It has made life anew to thousands who had been pronounced beyond hope.

C. W. CARSON, M. D.,  
766 Oakwood Blvd., Chicago, Ill.

Experience makes perfect. Having treated hundreds of old chronic stomach troubles for the last fifteen years, I can relieve a great majority of these cases and restore them to health and strength again, especially in those cases who suffer from the effects of pain in the stomach and bowels, bloating, gas, spitting up of food, sour stomach, headache, dizziness, loss of appetite, drowsiness, and heavy, bad feeling in the head.

PILES—Every case guaranteed cured without detention from business or use of knife.

Private Diseases a Specialty!

NERVOUS DEBILITY—Are you nervous, despondent, weak, tired mornings, no ambition, poor memory, easily fatigued, excitable and irritable, eyes sunken, red and blurred, pimples on the face, dreams, restless, haggard looking, weak back, deposit in urine, drains at stool, distrustful, want of confidence, lack of energy and strength

## RETURN FROM KANSAS TRIP.

Mr. and Mrs. J. W. Middleton returned Saturday morning from Abilene, Kansas, where they have been for the past two weeks visiting relatives. Mr. Middleton said yesterday that the crop conditions in Kansas were very satisfactory. The continued rains caused a great deal of inconvenience and delay in harvesting the wheat and threshing it, but at the same time the rain is responsible for the present excellent corn prospects. He said that some fields of corn in the locality where he was visiting give indication of a yield of eighty to ninety bushels to the acre, whereas the normal crop there is only twenty-five or thirty.

## Efficient Housekeeping

BY HENRIETTA D. GRAUEL.

## CHILDREN'S LUNCHES

HENRIETTA D. GRAUEL

"By the sweat of his brow shall man eat", is a command to work up an appetite if you would really enjoy your food, for work and food are closely related. Brain exercise creates an appetite as keen as does muscular exertion, but if the brain worker satisfies his appetite with boiled pork and vegetables, indulges in plum pudding and mince pie he becomes pessimistic. The day laborer made to subsist on breaded veal, spinach and gelatin desserts becomes enervated and finally loses his grip on his job. Thus we realize that temperance is also affected by food.

Thoughtful persons select their diet to accomplish certain results, eating foods that are wholesome and best suited to their needs. The would-be belle substitutes fish and eggs for meat. She eats beet tops, onions, raw carrots, lettuce, tomatoes and rhubarb, and sucks a lemon before each meal to reduce her flesh and whiten her complexion. Her temper suffers and so does her family, but she remains hopeful. Big brother follows a diet almost as foolish, but his work on the football field helps him to digest his superabundance of food that he thinks will make him a second Sandow.

Everyone works out a diet to suit their own beliefs but the children, and they are the ones who need selected foods most. School time is here now and they must carry a lunch. Often this is made up of whatever remains in the larder

from the previous meals; if it looks too skimpy a slice of pie or cake or a few baker's crullers are tucked in at the last. If, as rarely happens, the mother has studied child hygiene, the chances are she goes to the other extreme and experiments on the children along the lines suggested by the Homely Ladies Journal or the teachings of some food faddist that she has come in contact with. In consequence, the children of our best families go about hungry most of the time.

Your children need five meals a day; they should have eggs, milk, butter, bread, fruits, soups, vegetables and wholesome sweets in moderation. Here is a bill of fare for the children's lunch baskets; be sure, too, it is a basket and not a box that the lunch is packed in. A box or pail is air tight and the food carried in it tastes as though it needed more air.

**Monday**—Three sweet sandwiches, one of whole wheat, peanut butter and sugar, three small sweet pickles, a small jar of salmon, a few cookies. Thermos bottle of milk, hot cocoa or chocolate.

**Tuesday**—Sandwiches with minced beef filling, a jar of jam, square crackers buttered, celery, fruit.

**Wednesday**—Boston brown bread, well buttered, boiled eggs, white bread with nuts and lettuce filling, cake and apple.

**Thursday**—White bread sandwiches with minced ham filling, olives, a cup custard and a banana.

**Friday**—Whole wheat bread, peanut butter and jelly, sliced veal loaf, two pickled peaches, gingerbread.

**Saturday** (Picnic lunch)—Bread, butter, glass of jam, fried eggs wrapped in oiled paper, sweet pickles, cake, bottle of milk, fish if the kiddies catch any.

**Tomorrow**—The Truth About Unpolished Rice.

Ark. and Mrs. George Brewer of Chapin have been the guest of Mrs. Wash Davis.

Mrs. Frank Rabb was a visitor in Mt. Sterling Thursday.

Mrs. Jane Buchnell and Mrs. Emma Cox are visiting the former's son in Bushnell.

Miss Margaret Cody returned home Wednesday from a two weeks vacation visiting the cities of Chicago and Springfield.

**BROWN'S NIGHT SCHOOL.** Saves you time and money by giving the course in the shortest time consistent with the best results.

If you are interested in preparing for office work, or if you wish to review the common branches our course will benefit you.

Fall term opens Monday, Sept. 20, BROWN'S BUSINESS COLLEGE.

## CASES OF INTEREST

## Assault With Automobile

(West &amp; Co.)

The thousands of reported assault and battery cases disclose the use of many and varied instrumentalities. Assaults have been committed with hands, heads, feet, furniture, wearing apparel, books, rolling pins, kisses, etc. Assault with an automobile suggests a giant giant swinging and throwing cars, as the average man may handle a chair. Nevertheless, the opinion in State v. Schutte, 93 Atlantic Reporter, 112, reads in part: "The plaintiff in error was convicted of assault and battery by 'willfully and unlawfully' striking and wounding one Thomas Mitchell with an automobile, as charged in the indictment." As to fast driving the court says: "It requires neither argument nor illustration to show that the excessive rate of speed at which an automobile is driven is a product of the will of its driver and not the result of his mere inattention or negligence. The two cannot be confused any more than the hurling of a baseball bat into a crowd of spectators could be confused with its accidentally slipping from the hand of the batter. If a blow inflicted in the former manner would constitute an assault, so must a blow inflicted by a willful act applied to a much more dangerous agency, since it cannot be that what would be a crime if done with a plaything weighing a few ounces ceases to be a crime if committed with an engine weighing thousands of pounds driven by many horse powers of force. It has often been held that responsibility increases with the likelihood of injury, but never the reverse, that I am aware of. There is therefore no legal reason why the crime of assault and battery may not be committed by driving an automobile on a public highway at a rate of speed that endangers the safety of other persons and actually results in such injury."

Henry Veck of Concord was a visitor in the city Saturday.

## BE A BOOSTER.

Do you know there's lot o' people, 'Sottin' round in every town 'Grownin' like a broody chicken. 'Knockin' every good thing down? Don't you be that kind o' cattle: 'Cause they aint no use on earth. You just be a booster rooster, Crow and boost for all you're worth.

If your town needs boostin', boost'er, Don't hold back and wait and see If some other feller's willin'. Sail right in, this country's free; No one's got a mortgage on it, It's just yours as much as his, If your town is shy on booster, You get in the boostin' biz.

If things don't just seem to suit you, An' the world seems kinder wrong, What's the matter with a boostin' Just to help the thing along: Cause if things should stop agoin', We'd be in a sorry plight, You just keep that horn a-blowin', Boost'er up with all your might.

If you know some feller's failin's, Just forget 'em, 'cause you know That same feller's got some good points— Them's the ones you want to show 'Cast your loaves out on the waters' They'll come back," 's a saying true, 'Mebbe they'll come back all, 'but-tered' When some feller boosts for you.

### SOCIAL EVENTS

Miss Lena Johnson To Wed in October.

Announcement has been made of the approaching marriage of Miss Sarah Lena Johnson, daughter of Mrs. Mary Johnson, 321 Lockwood place, to Mr. Leonard Robert Finley, of Adrian, Mo. The wedding will take place early in October at the home of the bride. Miss Johnson was born and reared in this community and her friends are many. The prospective groom is a prominent farmer, well established in his home community and of excellent repute. The wedding will mark the culmination of a romance which began two years from last Christmas season, when Miss Johnson played the piano at the wedding of her cousin, Miss Caroline Rexroat, to Archie Finley, a brother of the prospective groom. Mr. Finley was graduated from the Adrian high school, after which he attended the Missouri State Agricultural college at Columbia. At the college his work reached a high standard and in animal husbandry, his specialty, he won prizes for ability and judgment. Mr. Finley is the son of Mr. and Mrs. R. W. Finley.

The bride-to-be is a young woman of talent and industry well liked and highly respected in an ever-widening circle of friendship. She attended the schools of Morgan county and was graduated June last from the academic department of Illinois Woman's college. Her wedding next month will occasion many words of sincere congratulation.

Children's Party Grooved Enjoyable.

The pleasant residence of Mr. and Mrs. James Wall at 715 West College street was a source of merriment yesterday afternoon when little folks to the number of almost fifty gathered to enjoy a visit with Mr. and Mrs. Wall's children, Blanche, Dorothy and George. The air rang with the happy shouts of the little folks as they sported about the lawn and enjoyed the games dear to the heart of childhood. All manner of pastimes were indulged in by the youthful guests and when they were ready to rest delicious refreshments were served them. Kind neighbors assisted in entertaining the party and all passed off in a delightful manner.

Mrs. Rexroat Entertains For Daughter's Birthday.

Saturday afternoon in honor of her daughter Ethel's eighth birthday. Games were played and the prize won by Russell Sargeant. The dining room was decorated in pink and white. In the center of the table was a beautiful birthday cake decorated with eight candles a gift of Mrs. Sarah Bristow of Virginia. Mrs. Rexroat was assisted in entertaining by Mrs. Logan Sargeant, Mrs. Thompson, Mrs. W. E. Lynn, Mrs. Sarah Bristow and Mrs. Clyde Richardson.

The following children were present: Mary Rachel Thompson, Kathryn Erickson, Luella Ledford, Elizabeth and Russell Sargeant, Mary Helen McCarty, Louise McCarty, Helen Lynn, Joyce Carpenter, Vivian Layman, Eugene Layman, Dorothy Fielder, Verne Overton, Fielder, Allen Rabjohn, Harold Rabjohn, Louise Muehlhausen, Helen Francis Bristow, George Metcalf, Maxine Hirt, Helen Wells, Harry Albert Goodrich. The guest of honor received many beautiful presents. An afternoon of play was enjoyed, followed by refreshments. The young guests departed wishing their young friend many happy returns of the day.

Observes Seventh Birthday Anniversary.

Mrs. William Wagner of 502 East North street entertained a company of little folks at her home Friday afternoon in honor of the seventh birthday anniversary of her daughter, Miss Ethel. There was present Misses Frances and Helen Brennan, Helen and Marjorie Franz, Anna Frances Bonansinga, Ethel and Kathleen Wagner and Joseph Mallen and Leonard and William Wagner. She time was happily spent with games and conversation. Nice refreshments were dispensed and heartily enjoyed.

### FUNERALS

Rutherford.

Brief funeral services for Mrs. Roy Rutherford were held at 10:30 o'clock Saturday forenoon at the family residence, 323 West College street, in charge of the Rev. Myron L. Pontius, pastor of Central Christian church. The body was then taken to Exeter and a more extended service was held in the Methodist church, in charge of the Rev. Scott Peak. Burial was made in Gillham cemetery. In Jacksonville the bearers were E. E. Hatfield, Edward Schwarberg, Perry White, John H. Crim, William Hunter and Roy Ayers.

At Exeter music was furnished by a choir of six. Norman Campbell, Al Morris, Miss Virgie Richardson, Miss Maggie Richardson, Mrs. R. L. Brackett and Mrs. W. F. Hunter. The flowers were cared for by Mrs. J. Spencer Self, Mrs. Hettie Morris, Mrs. Wade Sappington, Mrs. Jenks Funk and Miss Kittie Ward. The bearers were James I. Morris, Daniel Ratigan, Robert F. Brackett, Clyde Duncan, Henry Brown and Thomas Brown.

Farley.

Funeral services for Mrs. Catherine Devine Farley were held from the Church of Our Savior Saturday morning at 8 o'clock. The Rev. Dean J. W. Crowe was in charge. Interment was in Calvary cemetery and the bearers were: E. J. Logan, Patrick Ousley, John Gougherty, Edward Keating, Frank Wigglesworth and Thomas Dyer.

### CONFERENCE TO MEET IN SPRINGFIELD AGAIN

STATE CAPITAL SELECTED FROM LIST OF CITIES SEEKING MEETING.

Additional delegates to the General Conference Chosen. Figures Show Growth of Educational Forward Movement — Woman's Foreign Missionary Society Anniversary Observed — Rev. J. W. Miller Likely to Become a District Superintendent.

Springfield, Sept. 11.—Springfield was selected as the seat of the 1916 Illinois conference of the Methodist Episcopal church here today after a spirited ballot battle. Champaign, Danville and Casey, Ill., were strong contenders.

Five additional ministerial delegates to the general conference were elected as follows: Revs. Preston Wood, Springfield; J. C. Baker, Urbana; B. F. Shipp, Bloomington; J. C. Nate, LeRoy, and W. J. Davidson, of Evanston.

The Laymen's association of the conference adjourned this afternoon after re-electing all officers except Vice Presidents George H. Wilson, of the Quincy district, and F. M. Austin, of Bloomington. These were succeeded, respectively, by C. W. Caughlin, Pittsfield, and C. W. Grove, of Champaign.

Three new ministerial delegate reserves were chosen: C. F. Baker, of Mattoon district, superintendent, and T. N. Ewing, pastor of First church, Springfield, and Dr. W. H. Wilder, of Illinois Wesleyan university, Bloomington.

Announcements were made of the transfer of W. L. Ewing, of Hoopes-ton to the Indiana conference. He becomes the pastor of the large Centenary church at Terre Haute.

William Landiss, of Neoga, was transferred to St. John's River conference, Florida, and Peter Kittel, of Maroa, who was pastor at Franklin last year, will take a year of rest, and go on a farm.

Gracious Courtesy.

In the midst of the business session, State Superintendent Francis G. Blair, made a courtesy presentation of three or four dozen roses to Mrs. William F. McDowell, the wife of the bishop, from the resident Methodist pastors and their wives. The bishop referred in his acceptance of the gift in behalf of his wife, to the loving cup given him at the Bloomington session of the Illinois conference on the 20th of September, the anniversary of his marriage. He said that on each return of today annual that vase was supplied with flowers. He spoke of the burden on the heart and mind of the Methodist church, on account of the great war. Not a day passes, but some sad news come in from the field sending her to the secret place of prayer, for the girls sent out by the society to the foreign field. A purse of money was also given to the bishop on account of the lecture given freely on the evening before, which he received thankfully and promptly turned it over to President Kemp on account of his subscription to the endowment fund to the Illinois Wesleyan university. He said, incidentally, that having paid his subscription to the Illinois Woman's college, nobody would feel jealous.

Visitors Introduced.

A host of visitors were introduced representing various interests. Kemp, of Bloomington, McPherson, of Quincy, McCammon, of Urbana, and Barker, of Jacksonville, spoke along the lines of the educational forward movement, which lacks but one year of completion. So far, \$1,162,500 have been contributed to the six institutions within the border of the Central Illinois and Illinois conference. Highly complimentary resolutions were unanimously passed commending the directing energy and skill of the secretary of the commission, Dr. Joseph C. Nate. His duties to the general conference delegation was one of the evidences of this appreciation.

Women's Foreign Missionary Anniversary.

Mrs. J. C. Nate presided at the afternoon session of the annual gathering of missionary workers. It was a great occasion. The treasurer, Miss Robinson, reported the receipts for the year from the Illinois conference as \$49,273.84. Danville district heads the list with a contribution of \$7,670; Mattoon stands second with a gift of \$7,433. Bloomington, \$7,264 and Jacksonville district reports \$4,126.

Miss Kate Blackburn led in prayer. The speaker of the afternoon, Mrs. Lena Leonard Fisher, of Ohio, daughter of the former secretary of the missionary society of Methodism, Dr. Adna P. Leonard. It was a most thrilling and eloquent address. The great audience listened with rapt attention through the warm afternoon to the story of contrast between eastern and western womanhood and childhood.

Appointments.

The stress of the cabinet work is at its highest tension this, Saturday, afternoon. Very little is known of the result of the progress in making the appointments up to date.

Notes.

Dr. W. H. Webster was taken suddenly ill today and was cared for at the home of Frank S. Kuhl. His wife was sent for.

W. H. Musgrove, came in last night from Defiance, O., and is being greeted by his old friends with much enthusiasm.

Progress is being made in arranging the appointments and it is freely predicted that J. C. Nate and J. W. Miller will be assigned to the Champaign and Danville districts respectively, the much talked of reduction of the number of districts seems to have been abandoned by Bishop McDowell. Many names are being sug-

### NATIONAL MEDICAL BODY TREATS TIMELY THEMES

Dr. C. C. Cochran Attends Annual Sessions of American Society of Progressive Medicine.

Dr. C. C. Cochran has returned from Chicago, where he attended the fourth annual convention of the American Society of Progressive Medicine, in session four days last week at the Hotel LaSalle. More than five hundred delegates were in attendance and much interest was brought forth by a series of timely papers.

Among the papers of note were: "Pallegria in the United States," by Dr. E. M. Purdue of Kansas City, Mo.; "Typhoid Fever," by Dr. J. A. McDonald of Century, Fla.; "Tuberculosis and Its Treatment," by Dr. L. B. Couch of Nyack, N. Y.; "The Full Sufficiency of American Medicine," by Dr. Finley Ellinwood of Chicago, editor of Ellinwood's Therapist, and "Woman's Diseases, Their Cause and Cure," by a New York physician. Especially interesting were papers and discussions on the cause, symptoms and treatment of cancer.

Thursday afternoon the visiting physicians were entertained by an automobile trip around Chicago and the same evening a banquet was served.

Officers for the present year are: President—Dr. E. M. Purdue, Kansas City, Mo.

First Vice-president—Dr. O. O. Johnson of Florida.

Second Vice-president—Dr. L. B. Couch, Nyack, N. Y.

Third Vice-president—Dr. I. J. Eales, Belleville, Ill.

Fourth Vice-president—Dr. L. M. Ottofy, St. Louis, Mo.

### YELLOW IS SUFFRAGE COLOR.

A number of persons have asked why the women of the city adopted yellow ribbons as badges for those who favor the present form of city government. The answer is easy. Yellow is the equal suffrage color and the committee therefore considered it the most appropriate choice for their badges.

The Woman's society of State Street church will meet Tuesday, Sept. 14 at 3 o'clock in the church parlors. A full attendance is urged as the fall work is to be planned.

### MRS. C. E. DICKSON A PASSENGER ON DERAILED TRAIN

One of Many Who Had Marvelous  
Escape—Passengers Show Great  
Presence of Mind.

Mrs. C. E. Dickson was one of the passengers on the Alton Hummer which was wrecked Friday night near Elwood, the first station south of Joliet. Mrs. Dickson was en route to Springfield and the special train which was made up at Joliet to take care of the passengers did not reach Springfield until 5 o'clock this morning and Mrs. Dickson then came to Jacksonville over the Wabash to spend the week-end. Mrs. Dickson was riding in the parlor car at the time of the accident and when she noticed the car swaying to one side she seized the back of the seat in front of her and was not thrown from the one she occupied. All but two sleepers of the long train left the track and the rails were torn up for a distance of several hundred yards. The conditions were such that it was really impossible to tell the cause of the wreck but it is probably resulted from the excessive rain doing some damage to the roadbed. It was a marvelous thing that not one of the hundred and fifty passengers was seriously injured. Eight persons sustained minor injuries and a number were more or less shaken up. The most remarkable thing about the whole accident was the self-possession shown by the passengers. Only one person seemed very greatly excited, a man who had previously been ill, and he was hysterical for a time.

In the dining car every bit of china ware and glassware was broken, in countless pieces, and the passengers who were seated at the tables had their clothing saturated with coffee, milk and water and were more or less smeared over with meat juices and vegetables, but not one of them sustained a cut or scratch. Two physicians were on the train and gave the needed medical attention to the few persons who were injured. A special train was made up at Joliet but the delays were such in making transfers and getting train orders that Springfield was not reached until 5 o'clock.

Mrs. Dickson in commenting upon the presence of mind shown by the passengers said that there was practically no excitement shown, and although a good many passengers climbed out of the coaches through windows, when they had a moment or two to find that they were not injured, took the whole accident good-naturedly and it was not long afterward until all were in the coaches sent from Joliet, and a great many people were passing the time at cards and in the manner usual on a well ordered railroad train in which passengers are seeking something to do to lessen the monotony of travel.

### PUPILS AT CENTRAL BUILDINGS EXCEED SEVEN HUNDRED IN NUMBER

With more than seven hundred pupils enrolled at the central buildings, the David Prince school surpasses its last year's enrollment by a score and the Jacksonville high school stands forty or more ahead of its greatest number last year.

In the high school assembly hall seats have been assigned to 385 pupils. At David Prince school, the number of pupils will exceed the three hundred mark by some fifteen or twenty.

With the increased attendance, the rapidity with which teachers and pupils have taken up the year's work is all the more noteworthy. At the high school, registration took place Thursday and Friday, Sept. 2 and 3, and classes were proceeding in regular form Wednesday, the day after opening. At the David Prince school, affairs were in good swing Wednesday last, the day after registration and opening. Attention has been confined to regular work during the past week. During the next five days the drawing, music, gymnasium, writing and other forms of special work will be initiated.

One would be compelled to travel many miles and visit a number of the larger cities before seeing a display of MEN'S HATS equal those shown by FRANK BYRNES' Hat Store.

### JOHN HOHMANN KILLED BY WABASH FREIGHT

DEAF MAN SUFFERS ACCIDENT  
AT ALEXANDER.

Was Walking Tracks on Way to Home Southeast of Village—Death Comes at Hospital Two Hours After Man Is Hit by Meat Train—Born and Reared in Germany.

John Hohmann of Alexander died Saturday afternoon at 4:15 o'clock at Our Savior's hospital from injuries received an hour and three quarters before when a fast Wabash freight overtook him and flung him from the track with serious internal hemorrhages and a broken spine. Mr. Hohmann is deaf and dumb and failed to perceive the approach of the through meat train which was running on the schedule of No. 82 and passed through Alexander about 2:30 o'clock. He was walking eastward towards the home of his brother, Martin Hohmann, with whom he has resided for the past eight years, when the accident occurred.

The injured man was brought to Jacksonville upon another freight which passed through Alexander a few minutes later. He was accompanied by Dr. Wade H. Schott and on arrival here was met by Dr. F. A. Norris. Mr. Hohmann had been at the hospital but a short time when death came.

A coroner's jury empaneled late Saturday afternoon and sitting at O'Donnell's undertaking establishment, where the body was taken, brought in the finding: That he came to his death from the shock and injuries received by being struck by Wabash freight train east of Alexander, Ill., about 2:30 o'clock, while walking on the Wabash right of way. We further find that John Hohmann was deaf and dumb. Deputy Coroner John M. Carroll presided and on the jury were Arthur Harmon, foreman; John Vickery, William D. McAvoy, James D. Pike, L. P. Conlee and John Johnson, clerk.

Mr. Hohmann was born March 7, 1851, in Germany and has lived in this country since 1881. He is survived by two brothers and one sister: Martin Hohmann of Alexander, Jacob Hohmann of New Berlin and Mrs. Katherine Effelman, who resides in Germany. Mr. Hohmann was a paper hanger and painter and was a man of industry and good habits. He was a member of the German Lutheran church at New Berlin.

The body will be taken to Alexander today to the home of Martin Hohmann. Funeral services will be held Tuesday forenoon at 10:30 o'clock at the New Berlin Lutheran church and burial will be made in the cemetery at New Berlin.
